PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and enhanced mobile applications using **React Native**, implementing new features for a **digital trading platform** and optimizing for scalability and real-time user experiences.
- Built and shipped new mobile features within an **agile** development environment, contributing to technical design and product evolution for a global user base.
- Optimized application responsiveness and ensured smooth real-time user experiences at scale by integrating **RESTful APIs** and **WebSocket-based services**.
- Implemented and improved **data visualization** components, transforming large and complex datasets into clear, actionable insights for end-users.
- Collaborated with cross-functional teams including engineers, designers, and product managers to define, design, and deliver innovative mobile solutions.
- Contributed to code quality, testing strategies, and the continuous improvement of the overall mobile application architecture.
- Containerized Java Spring Boot microservices using **Docker** for deployment onto **AWS EC2** instances, integrating with **Jenkins** for automated CI/CD pipelines.

SKILLS

Mobile Development – React Native, JavaScript, ES6+, Redux, Expo

Backend & APIs – RESTful APIs, WebSockets, Java, Spring Boot, Python, Flask, FastAPI

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

Data Visualization & Analytics – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum

Tools – Jira, Confluence, Xcode, Android Studio

PROJECTS

Real-Time Trading Dashboard with React Native

- Developed a **React Native** mobile application to visualize real-time market data streams, enabling users to monitor trading activity efficiently.
- Integrated **WebSocket** connections for live data feeds and implemented state management with **Redux** to handle high-frequency updates across the application.
- Designed and built interactive charting components to display complex financial datasets, enhancing user comprehension of market trends.

Java REST API for Financial Data Aggregation

- Engineered a **Java Spring Boot** RESTful API service to aggregate financial transaction data from multiple sources.
- Implemented data persistence using **Hibernate** with **PostgreSQL**, ensuring reliable storage and retrieval of over 500,000 transaction records.
- Developed comprehensive unit tests using **JUnit** and **Mockito**, achieving 88% code coverage for core API functionalities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
