PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Monitored and analyzed project costs and financial performance for an assigned portfolio, preparing bi-weekly cost reports and variance analyses to support project managers.
- Maintained accurate job costing across labor, materials, and subcontractor expenses, ensuring alignment with project budgets and client reporting standards.
- Prepared and processed progress billings and milestone invoices, reviewing contracts to confirm billing terms and deliverables adherence for multiple projects.
- Assisted in developing project budgets and financial forecasts, updating projections based on actual performance and identifying potential cost overruns or savings opportunities.
- Collaborated with operations and procurement teams to gather financial data, providing insights that supported decision-making and ensured alignment with the Plant Controller.
- Ensured project financial records and documentation were accurate and compliant with internal controls and audit requirements, supporting internal and external audits.
- Containerized Java Spring Boot microservices using **Docker** and deployed them to **AWS EC2** instances, managing configurations and basic resource allocation for predictable rollouts.

SKILLS

Project Accounting – Project Financial Management, Cost Tracking, Budgeting, Forecasting, Billing, Revenue Recognition, Job Costing, Compliance, Documentation

Financial Tools – Excel (Pivot Tables, Lookups), Accounting Software (Sage300, SAP, or similar)

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data Analysis & Reporting – Data Visualization, Financial Reporting, Variance Analysis, Data Modelling

Enterprise Systems – ERP Integration Support, Change Management

PROJECTS

Financial Controls Enhancement for Enterprise Systems

- Developed automated Python scripts to extract and consolidate financial data from multiple PostgreSQL and Oracle databases, reducing manual reporting time by approximately **40%**.
- Designed and implemented enhanced validation rules within the data extraction process to improve accuracy for job costing and billing reconciliation, catching **~15%** more discrepancies pre-reporting.
- Created a series of interactive **Power BI** dashboards to visualize project financial performance, cost drivers, and billing status for management review.

Production Support Dashboard for Financial Operations

- Built and maintained **Java Spring Boot** REST APIs to ingest and process real-time transaction data for a financial services operations dashboard, supporting **3,200+** events per hour.
- Implemented robust error handling and logging mechanisms using **Splunk** and **Dynatrace** for production support, reducing critical incident triage time by **20%**.
- Collaborated with business analysts to define alerting rules and reconciliation workflows, ensuring timely identification of failed payment messages within the system.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
