PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided on-site technical support across multiple company offices, resolving approximately **15-20 end-user IT issues** per week related to hardware, software, and network connectivity.
- Learned and effectively resolved common IT issues for end-users, including troubleshooting **Windows 10/11** operating systems and common application errors.
- Assisted in the setup, configuration, and maintenance of end-user devices and peripherals, including **laptop imaging and dock setup** for new hires.
- Maintained an organised inventory of IT assets and resources using a **ticketing system**, ensuring accurate tracking for approximately **500 users**.
- Collaborated with cross-functional teams to ensure seamless ticket escalations and resolution, contributing to a **15% reduction** in average ticket resolution time for Tier 1 issues.
- Contributed to IT projects, including participation in **software deployments** and hardware upgrade initiatives, following defined project plans.
- Managed access requests and user permissions within **Active Directory** and **Azure AD** environments, ensuring compliance with security policies.

SKILLS

Operating Systems – Windows 10, Windows 11, Linux

Directory Services – Active Directory, Azure AD

Productivity Suites – Office 365

Hardware & Peripherals – Troubleshooting, Setup, Configuration

IT Service Management – Ticketing Systems, ITAM, Escalation

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

End-User Device Deployment and Support Automation

- Developed Python scripts to automate the initial setup and configuration of **new employee laptops**, reducing manual setup time by approximately **30%** per device.
- Created a shell script for log analysis on Linux servers, assisting in the early detection of common issues before they impacted end-users.
- Documented standard operating procedures for common troubleshooting steps, contributing to a knowledge base used by the support team.

IT Asset Management and Inventory System Enhancement

- Designed and implemented a streamlined process for tracking IT assets using a combination of **Jira** for ticketing and **SQL** queries against a PostgreSQL database for reporting.
- Assisted in maintaining an accurate inventory of over **500 IT assets**, including hardware, software licenses, and peripherals, ensuring compliance and reducing loss.
- Generated weekly reports on asset status and allocation to support resource planning and procurement decisions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
