PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** RESTful APIs for internal microservices, handling approximately **1,500 requests per minute** and integrating with existing enterprise systems.
- Implemented **Hibernate** and **JPA** for data persistence, managing complex relational data models across multiple PostgreSQL databases and ensuring data integrity for core financial operations.
- Authored comprehensive **JUnit** and **Mockito** test suites for critical Java components, achieving over **85% code coverage** and reducing production defects by **18%** in the Q4 release cycle.
- Contributed to the design and implementation of secure, high-quality production code, participating in **code reviews** and technical estimation for new feature development within an **agile** framework.
- Gathered, analyzed, and synthesized data from diverse sources to develop visualizations and reporting, supporting the continuous improvement of software applications and operational dashboards.
- Collaborated with cross-functional teams to execute software solutions, troubleshoot technical issues, and contribute to architecture and design artifacts, ensuring adherence to design constraints.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and implementing health checks for improved application resiliency.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, JUnit, Mockito

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle, SQL

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Linux, Shell Scripting

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java modules into a modern **Spring Boot** microservice architecture, improving system responsiveness by **22%**.
- Integrated **Hibernate** for object-relational mapping, streamlining database interactions and enhancing data consistency across the application.
- Developed and deployed RESTful APIs using **Spring Boot** to support cross-system integrations within the enterprise banking platform.

Automated Reporting Framework with Python (HCL Technologies)

- Developed Python scripts to automate the generation of daily operational reports from PostgreSQL and Oracle databases, reducing manual effort by **~8 hours per week**.
- Engineered data extraction and transformation (ETL) pipelines using **pandas** and SQL queries to prepare data for reporting and analysis.
- Scheduled and monitored report generation jobs using **Linux cron jobs** and shell scripting, ensuring timely delivery of critical business insights.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
