PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Removed and organized **network and power cabling** for multiple server racks during data centre decommissioning events, following strict safety protocols.
- Executed **hardware removals and staging** for servers and IT components according to detailed written guides and checklists, ensuring proper handling and preparation.
- Performed **physical audits of data centre assets**, cross-referencing inventory tags with system records to maintain accurate asset databases.
- Managed **Microsoft Outlook and Excel** for communication, task tracking, and basic data organization related to IT hardware and decommissioning workflows.
- Assisted senior technicians in the **installation and replacement of IT equipment**, adhering to standard operating procedures for various hardware types.
- Supported **on-site operations** during core business hours, with flexibility to extend hours as needed for project completion at the data centre.
- Contributed to **change control management** for system configuration updates and post-go-live support across interconnected systems.

SKILLS

IT Hardware – Servers, IT components, Hardware decommissioning, Hardware installation

Data Centre Operations – Cable management, Rack and stack, Physical audits, Asset tagging

Documentation & Procedures – Written instructions, Checklists, Standard operating procedures, Safety rules

Microsoft Office – Microsoft Outlook, Microsoft Excel, Microsoft Word

IT Support – Entry-level IT, Field support, Hardware support

PROJECTS

Data Centre Hardware Decommissioning and Asset Audit

- Managed the physical decommissioning of over 150 servers and network devices within a 4-month project timeframe, meticulously removing all associated power and data cables.
- Executed detailed physical audits of decommissioned hardware, ensuring accurate reconciliation of serial numbers and asset tags against the master inventory list.
- Followed strict procedural guidelines for safe hardware handling and disposal, contributing to the efficient refresh cycle of data centre infrastructure.

IT Infrastructure Support and Cabling Management

- Organized and labeled new network and power cabling runs within server racks, improving cable management and simplifying future maintenance tasks for a team of 5 technicians.
- Assisted in the staging and preparation of new IT equipment for deployment, including initial power-up and basic system checks based on vendor documentation.
- Documented asset movements and hardware status updates in a shared Excel tracker, supporting the overall IT asset management strategy.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
