PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for internal microservices, handling approximately **2,100 requests per minute** and ensuring seamless data exchange.
- Developed and maintained **Hibernate and JPA** persistence layers, optimizing **SQL queries** against PostgreSQL databases to improve data retrieval efficiency for core application modules.
- Authored comprehensive **JUnit and Mockito** test suites for Java components, increasing code coverage by **18%** and reducing critical bug occurrences in production.
- Collaborated with product managers to gather technical requirements for new feature development, translating them into actionable development tasks within an **Agile Scrum** framework.
- Participated in rigorous **code reviews** for a team of 4 engineers, providing constructive feedback to maintain high code quality and adherence to architectural standards.
- Engineered **Python scripts** to automate ETL processes for daily reporting, reducing manual data compilation time by approximately **6 hours per week**.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2 instances**, managing configurations and monitoring application health via **CloudWatch**.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Hibernate, JPA, JUnit, Mockito, Maven

Databases – PostgreSQL, MySQL, Oracle, SQL, NoSQL concepts

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Scripting & Automation – Python, Shell Scripting

Data & Analytics – Power BI, Tableau, DAX, Power Query, pandas, NumPy, R, scikit-learn

Methodologies – Agile, Scrum, Change Management

PROJECTS

Enterprise Java Application Modernization

- Refactored a legacy Java application module into a **Spring Boot microservice**, improving performance and maintainability.
- Implemented **Hibernate** for data access, optimizing **SQL queries** and database interactions for a **PostgreSQL** backend.
- Developed a comprehensive suite of **JUnit tests** to ensure the stability and reliability of the new service, achieving **85% code coverage**.

Automated Reporting Pipeline with Python

- Developed a **Python ETL pipeline** to extract, transform, and load data from multiple sources into a central repository for analytics.
- Automated the generation of daily and weekly reports using **pandas** and scheduled their delivery via email, saving an estimated **5 hours of manual work** per week.
- Integrated the pipeline with **AWS S3** for data storage and utilized **scheduled jobs** for automated execution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
