PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot** microservices to handle core SaaS functionalities, focusing on **REST API** design and implementation for cross-service communication.
- Engineered and maintained **Python** scripts for automating data ingestion and transformation tasks, supporting ETL processes for reporting and operational analytics.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, adhering to strict SLAs and performing root cause analysis for P1/P2 issues.
- Contributed to the design and development of scalable SaaS solutions, writing clean, maintainable, and production-ready code within an Agile framework.
- Participated in comprehensive code reviews, providing constructive feedback to peers and ensuring adherence to coding standards and best practices.
- Collaborated cross-functionally with Product, QA, and DevOps teams to ensure seamless integration and delivery of new features and enhancements.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, ensuring efficient resource utilization and scalability.

SKILLS

Languages – Java, Python, SQL, JavaScript, C#

Frameworks/Libraries – Spring Boot, Spring MVC, Hibernate, JPA, pandas, NumPy, scikit-learn

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Application Modernization

- Refactored legacy Java modules into **Spring Boot** microservices, improving modularity and maintainability for a key enterprise system.
- Developed **RESTful APIs** for inter-service communication, integrating with **PostgreSQL** for persistent data storage and retrieval.
- Implemented comprehensive unit tests using **JUnit**, achieving over 85% code coverage for critical service components.

Python-based Data Pipeline Automation

- Built an automated data pipeline using **Python** and **pandas** to extract, transform, and load data from disparate sources into a central data store.
- Developed scheduled reporting scripts that generated daily operational summaries, reducing manual reporting effort by approximately 6 hours per week.
- Integrated the pipeline with **AWS S3** for transient data staging and final storage of processed datasets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
