+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained native Android application features using **Kotlin** and **Java**, ensuring adherence to modern API standards and architectural patterns.
- Collaborated with core product teams to integrate new features and architectural enhancements into the primary Android application, supporting multiple OS versions.
- Participated in and advocated for improvements in **Agile** practices and team culture, contributing to sprint planning and retrospective sessions.
- Owned the full development lifecycle for a key feature within an Android application, from design and implementation through to release and post-launch support.
- Engaged in pairing sessions and rigorous **code reviews** to uphold high-quality code standards and application resiliency.
- Integrated **client-side persistence** mechanisms and implemented **concurrency/coroutines** for efficient background data handling within the mobile app.
- Containerized application components using **Docker** and deployed to a cloud environment, ensuring consistent build and runtime configurations.

SKILLS

Mobile Development – Android, Kotlin, Java, Coroutines, Compose, Transitions, Animations, Client-side persistence, MVVM, Dagger

Architecture & Design – Mobile application architecture, Architectural patterns, Code reviews, Pairing

Methodologies – Agile, Kanban, Scrum

Tools & Platforms – Docker, Cloud (general)

AI/ML – AI tooling

PROJECTS

Android Application Feature Development

- Developed a new user profile management feature for an enterprise Android application using **Kotlin** and **MVVM** architecture, enhancing user data control.
- Implemented **client-side persistence** using Room Database to store user preferences and offline data, improving application responsiveness.
- Collaborated with UX designers to implement smooth **animations** and transitions, creating a more engaging user experience.

Mobile App Architecture Refinement

- Refactored existing Android application modules to adopt modern architectural patterns, improving maintainability and testability.
- Integrated **coroutines** for asynchronous operations, reducing blocking calls and improving UI fluidity across the application.
- Contributed to the adoption of **Dagger** for dependency injection, simplifying component management and enhancing code modularity.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
