PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided second-line application support for laboratory information management systems (LIMS) and related lab applications, troubleshooting software, configuration, and user access issues.
- Supported integrations between laboratory instruments, databases, and enterprise systems, ensuring reliable data flow and adherence to data integrity requirements.
- Maintained and supported system configurations, user roles, and access controls in accordance with GMP and company policies, coordinating with security teams for access reviews.
- Assisted with system validation activities, including IQ/OQ/PQ support, impact assessments, and validation documentation for GxP-compliant laboratory systems.
- Created and updated system-related documentation such as SOPs, Work Instructions, and support playbooks for laboratory applications.
- Participated in scheduled system maintenance and upgrades, coordinating with vendor support to ensure minimal lab disruption and adherence to change management procedures.
- Supported internal and regulatory audits by providing system evidence, audit trails, and access logs for supported laboratory systems.

SKILLS

Application Support – LIMS, Empower, Caliber, FTIR, UV software, RF Smart, Incident Management, Service Request Management, Troubleshooting

Database & Systems – SQL, Database Backup, Restore, Monitoring, User Access Control, Security Settings, GMP, ALCOA+

System Management – Configuration, Change Control, Impact Assessment, System Validation, IQ/OQ/PQ, Periodic Reviews, Vendor Management

Documentation & Compliance – SOPs, Work Instructions, Configuration Specifications, Validation Documents, Support Playbooks, Data Integrity, Cybersecurity, IT Quality Policies

Core Technologies – Java, Spring Boot, Python, SQL, AWS, Linux, Docker, Git, Jenkins, Jira, Confluence

Data Analytics & BI – Power BI, Tableau, DAX, R, pandas, scikit-learn

PROJECTS

Laboratory System Integration Support (HCL Technologies)

- Enhanced data flow reliability for a financial services client's laboratory systems by supporting integrations between instrument databases and enterprise ERP modules, reducing data transfer errors by **18%**.
- Developed Python scripts to automate data validation checks for transaction logs originating from laboratory instruments, ensuring compliance with data integrity standards and flagging **~450** potential discrepancies per quarter.
- Documented and maintained configuration specifications and troubleshooting guides for multiple laboratory software applications, aiding the operations team in resolving **~20%** of common user issues without escalation.

Application Support Playbook Development (MSc Applied Project)

- Designed and implemented a comprehensive support playbook for a critical laboratory information management system (LIMS) as part of MSc Data Analytics coursework.
- Collected requirements from simulated laboratory users and IT support teams to define common incident types, resolution steps, and escalation paths.
- Created interactive dashboards in **Power BI** to visualize incident trends and resolution times, identifying key areas for system optimization and user training.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
