PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards**, incorporating complex **DAX measures** and **Power Query** transformations to visualize key performance indicators for business stakeholders.
- Extracted and synthesized large datasets from enterprise systems, including **JDE** and cloud environments, using advanced **SQL** to identify critical trends and anomalies in operational data.
- Designed and implemented automated workflows and reporting structures within **Smartsheet**, bridging the gap between operational task management and actionable data insights.
- Collaborated with business units to translate commercial needs into technical data solutions, acting as a primary liaison between data teams and non-technical stakeholders.
- Authored detailed **SQL queries** against relational databases for data validation and ad-hoc reporting, supporting financial services operations.
- Containerized Java Spring Boot applications using **Docker**, deploying to **AWS EC2** instances and managing configurations via **Jenkins** pipelines for CI/CD.
- Managed production support for enterprise applications, performing incident response for P1/P2 issues and ensuring adherence to strict SLAs within a **GDPR-aware** environment.

SKILLS

Business Intelligence – Power BI, DAX, Power Query, Tableau, Data Visualization, Business Reporting

Data Analysis & Modeling – SQL, Data Warehousing, Data Lakes, ETL, Data Synthesis, Trend Analysis, Anomaly Detection

Workflow Automation – Smartsheet, Control Center, Jira, Confluence

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming & Scripting – Python, Java, Spring Boot, SQL

DevOps & CI/CD – Docker, Jenkins, Git

PROJECTS

PCI Pharma Services Data Visualization Platform

- Architected and developed a suite of **Power BI dashboards** to monitor key business KPIs, integrating data from JDE and cloud sources.
- Implemented custom **DAX measures** and optimized **Power Query** scripts to ensure data accuracy and performance for real-time reporting.
- Collaborated with business analysts to gather requirements and deliver interactive visualizations that supported strategic decision-making.

Financial Transaction Monitoring System Enhancement

- Developed advanced **SQL queries** to extract and analyze transaction data from a PostgreSQL database, identifying patterns in payment processing workflows.
- Created automated alerts and reporting mechanisms using **Python scripting** to flag and track failed transactions, reducing manual oversight by approximately 40%.
- Supported the migration of data pipelines to an **AWS S3** data lake environment, improving data accessibility for downstream analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
