PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and managed **Microsoft Entra ID (Azure AD)** for identity governance, including implementing **conditional access policies** and **multi-factor authentication (MFA)** to enhance security posture for over **5,000 users**.
- Deployed and maintained **Microsoft Intune** for device compliance, managing application deployments and endpoint configurations across a fleet of **~2,500 corporate devices**.
- Managed and monitored **Microsoft Defender XDR solutions**, including Defender for Endpoint and Defender for Office 365, responding to security alerts and mitigating threats within **4 hours** of detection.
- Acted as a **Level 3 Incident Manager** for critical security incidents, leading investigations and developing remediation strategies that reduced recurrence by **15%**.
- Developed and maintained comprehensive documentation for system configurations, security policies, and operational procedures, improving knowledge transfer efficiency by **20%**.
- Applied **Zero Trust principles** across identity, devices, and applications, integrating PIM and role-based access controls to enforce least privilege.
- Supported and troubleshooted **Linux** systems and applications in a production environment, performing log analysis and shell scripting for automation and issue resolution.

SKILLS

Cloud & Security – Microsoft Entra ID (Azure AD), Microsoft Intune, Microsoft Defender XDR, Microsoft Sentinel, PIM, Zero Trust, Identity and Access Management, MFA, Network Security Groups, Firewalls, Encryption

Cloud Platforms – Azure, AWS

Operating Systems – Linux, Windows

DevOps & IaC – Docker, Jenkins, Git, Terraform, Kubernetes, Helm

Databases – PostgreSQL, MySQL, Oracle

Programming Languages – Java, Python, SQL, Shell Scripting

ITIL & Service Management – Incident Management, Change Management, Problem Management, Service Request Management, Knowledge Management, CAB

PROJECTS

Azure Cloud Security Hardening Initiative

- Implemented a comprehensive security hardening strategy for Azure cloud resources, focusing on network security groups, firewalls, and encryption protocols for sensitive data.
- Integrated **Microsoft Sentinel** for centralized security monitoring and threat detection, correlating logs from various Azure services to identify and respond to potential breaches.
- Developed and documented new security runbooks and SOPs for managing cloud-native security tools, reducing incident response time by an average of **18%**.

Endpoint Security and Compliance Platform

- Configured and managed **Microsoft Intune** policies for device compliance and application deployment, ensuring adherence to corporate security standards for over **2,000 endpoints**.
- Deployed **Microsoft Defender for Endpoint** to proactively detect and respond to threats on managed devices, reducing the number of critical endpoint security alerts by **30%**.
- Created automated scripts using Python to audit device configurations against Intune compliance policies, identifying and remediating misconfigurations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
