PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Installed, configured, and troubleshoot **Windows**, **macOS**, and **Linux** operating systems across a fleet of 200+ endpoints, resolving an average of 15 critical OS-level incidents per week.
- Administered and maintained **Active Directory**, including Group Policy management and user account provisioning/deprovisioning, supporting a domain environment for over 500 users.
- Diagnosed and resolved complex networking issues related to **TCP/IP**, **DNS**, and **DHCP**, improving network connectivity for users by **20%** through root cause analysis and configuration adjustments.
- Performed root cause analysis on system and application logs using **Splunk** and **Dynatrace** to identify performance bottlenecks and resolve recurring P1/P2 incidents, reducing critical alerts by **30%**.
- Managed software deployment, updates, and patch management for enterprise applications using **Jenkins** and internal deployment tools, ensuring timely delivery of security patches to over 250 machines.
- Provided remote support and troubleshooting for hardware failures on laptops, desktops, and servers, coordinating with vendors for **RMA** processing and replacements, resolving an average of 5 hardware tickets daily.
- Documented standard operating procedures (SOPs) and created knowledge base articles for common technical issues, improving the first-contact resolution rate for Level 1 support by **15%**.

SKILLS

Operating Systems – Windows, macOS, Linux, Active Directory, Group Policies

Networking – TCP/IP, DNS, DHCP, Subnetting, VLANs, Firewalls, Routers, Switches, VPNs

Hardware/Software – Troubleshooting, Installation, Configuration, Software Deployment, Patch Management

Cloud & Virtualization – AWS, Azure, Google Cloud, VMware, Hyper-V, VirtualBox

Scripting & Automation – PowerShell, Bash, Python

ITSM & Support Tools – ITIL V4, Jira, ServiceNow, Zendesk, Splunk, Dynatrace, TeamViewer, AnyDesk, RDP

Databases – SQL, PostgreSQL, MySQL, Oracle

PROJECTS

Enterprise IT Systems Support and Automation (HCL Technologies)

- Automated routine IT support tasks using **Bash** and **Python** scripting, reducing manual effort for user account management and software deployment by **40%**.
- Managed and troubleshoot enterprise-level incident response for critical applications, adhering to strict SLAs and performing log analysis with **Splunk** to resolve P1/P2 issues within defined timeframes.
- Supported cross-system integrations via **REST APIs** and database-level data flows between ERP modules and operational platforms, ensuring data consistency across interconnected systems.

IT Project Support and Change Management Framework (HCL Technologies)

- Participated in IT projects including infrastructure upgrades and software rollouts, coordinating UAT and post-go-live support for enterprise systems.
- Implemented and managed change control processes for system configuration updates, ensuring adherence to organizational policies and comprehensive documentation.
- Provided technical support for cloud services on **AWS**, including EC2 instance management and S3 bucket configuration, contributing to the stability of hosted applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
