PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices for core backend functionality, implementing **RESTful APIs** and handling asynchronous request processing via message queues.
- Engineered robust **Hibernate/JPA** persistence layers for data management, optimizing database interactions and ensuring data integrity across multiple enterprise applications.
- Designed and implemented object-oriented solutions using **Java JDK 8**, adhering to established design patterns and ensuring high code quality through thorough **JUnit** test coverage.
- Collaborated with cross-functional teams to deliver new features within an **Agile/Scrum** framework, participating actively in sprint planning and technical estimation.
- Wrote and reviewed code for new feature development, ensuring adherence to coding standards and best practices for maintainability and performance.
- Managed production incidents and performed root cause analysis for critical enterprise applications, contributing to the stability of financial-services operations dashboards.
- Containerized backend services using **Docker** and deployed them to **AWS** Elastic Beanstalk environments, managing configuration and application lifecycle.

SKILLS

Core Java – Java JDK 8, Spring Boot, Spring Security, Hibernate, JPA, Maven, Object-Oriented Programming, Design Patterns.

API & Messaging – RESTful APIs, JSON, SOAP, Message Queuing, Distributed Systems.

Databases – SQL Server, PostgreSQL, MySQL, Oracle, Relational Databases.

Testing & CI/CD – JUnit, Git, Jenkins.

Cloud & Containerization – AWS, Cloud Foundry, Docker.

Monitoring & Scripting – Splunk, Dynatrace, Python.

PROJECTS

Enterprise Java Backend for Financial Operations

- Built a **Java Spring Boot** application to process and monitor financial transaction data, integrating with a **PostgreSQL** database for storage.
- Implemented asynchronous processing for incoming transaction messages using a **JMS queue**, ensuring reliable delivery and order preservation.
- Developed comprehensive **JUnit** test suites achieving over 85% code coverage for critical business logic components.

Cloud-Native Java Application Deployment

- Containerized a **Java EE** enterprise application using **Docker** for consistent deployment across development and production environments.
- Configured and deployed the containerized application to **AWS** Elastic Beanstalk, managing environment variables and application settings.
- Integrated application logging with **Splunk** for real-time monitoring and alerting on operational issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
