PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Resolved over **150+ end-user technical issues** per month related to Windows 11 operating systems, Microsoft 365 applications, and various enterprise software through a ticketing platform, maintaining an average first-response time of **4 hours**.
- Managed user accounts and permissions across **Active Directory** and email platforms, performing account creation, modification, and deletion tasks for an organization of approximately **300 users**.
- Installed, configured, and updated software packages on user workstations and laptops using **remote management tools** and standardized imaging processes, ensuring all devices met security and operational requirements.
- Prepared new employee equipment, including **imaging laptops** with Windows 11 and essential software, asset tagging, and deployment to end-users to facilitate rapid onboarding.
- Supported mobile devices and managed mobile device configurations, ensuring compliance with organizational policies and security standards.
- Maintained comprehensive documentation for IT support procedures, troubleshooting guides, and user FAQs, contributing to a **15% reduction** in repeat-issue ticket volume.
- Provided technical assistance and resolved hardware and software issues for desktops, laptops, and other office IT devices, ensuring **minimal disruption** to business operations.

SKILLS

Operating Systems – Windows 11, Linux

Productivity Suites – Microsoft 365, Teams, OneDrive

ITSM & Ticketing – Jira, ServiceNow, IT Support Ticketing Systems

Hardware & Devices – Desktop Support, Laptop Support, Mobile Device Support, MDM

Enterprise Applications – Active Directory, Enterprise Software

Tools & Technologies – Remote Management Tools, Jenkins, Git, Splunk, Dynatrace, Docker

PROJECTS

Desktop Support Process Improvement Initiative (HCL Technologies)

- Streamlined the **incident management process** for desktop support by implementing standardized triage procedures within Jira Service Desk, reducing average resolution time for P2 incidents by **20%**.
- Developed and maintained comprehensive documentation for common hardware and software issues, creating a knowledge base that supported **new support engineers** and reduced escalation rates.
- Coordinated with the IT operations team to ensure timely deployment of software updates and security patches across the user base, maintaining **95% compliance** with internal security mandates.

User Account Management Automation (HCL Technologies)

- Automated user account creation and deactivation processes using **Python scripting** and SQL queries against Active Directory and HR databases, decreasing manual effort by approximately **10 hours per week**.
- Designed and implemented a script to audit user permissions in Active Directory, identifying and flagging **over 50 inactive accounts** for review and removal to enhance security posture.
- Integrated the automation script with a ticketing system to trigger account management workflows, improving tracking and auditability of user lifecycle events.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
