PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided onsite IT support for laboratory and manufacturing systems, troubleshooting login, permissions, and application issues for end-users within a **GxP environment**.
- Administered and managed **Active Directory**, including user accounts, group policies, and OUs, to enforce role-based security models and manage access controls.
- Supported the installation, upgrade, validation, and maintenance of analytical equipment software, coordinating with site-based business users and corporate IT.
- Executed validation documentation in support of system lifecycle activities and drafted/updated **IT-related SOPs and procedures** to ensure compliance.
- Participated in audit readiness activities and inspections, liaising between corporate IT and site operations teams to ensure system security and compliance.
- Developed **Python scripts** to automate routine reporting tasks and data validation for enterprise systems, reducing manual effort by approximately **15%**.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence across a team of 4 engineers.

SKILLS

Operating Systems & Directory Services – Active Directory, Group Policy, OUs, Linux

IT Support & Compliance – GxP, GMP, Validation Documentation, SOPs, Audit Readiness, System Lifecycle Management, Cybersecurity, Data Integrity

Databases – SQL Server, MySQL, Oracle, PostgreSQL

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Monitoring & Automation – Splunk, Dynatrace, Jenkins, Shell Scripting

PROJECTS

GxP Laboratory System Support Enhancement

- Developed a Python-based script to automate the generation of system validation reports for laboratory software, cutting down manual compilation time by **~30%**.
- Created detailed runbooks and troubleshooting guides for common issues encountered with **LIMS** and analytical equipment software, improving first-call resolution rates for the support team.
- Assisted in coordinating User Acceptance Testing (UAT) for system upgrades, ensuring all documentation met **GxP** compliance standards before go-live.

Active Directory User Access Automation

- Built a series of **Python scripts** to automate the creation and modification of user accounts and group memberships in **Active Directory**, streamlining onboarding processes.
- Implemented checks within the scripts to ensure adherence to role-based security models, reducing manual errors in access provisioning by approximately **20%**.
- Collaborated with the IT operations team to integrate automated scripts into the existing change-control management workflow for system configuration updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
