PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and maintained **Azure infrastructure** across development, staging, and production environments, ensuring high availability and performance.
- Designed and implemented **Infrastructure as Code** using **Terraform** for repeatable and scalable cloud deployments, reducing manual configuration time by 40%.
- Developed automation scripts using **PowerShell** and **Azure CLI** to streamline routine operational tasks, including resource provisioning and configuration management.
- Built and managed **CI/CD pipelines** using **Azure DevOps** for automated application deployments and infrastructure updates, enabling faster release cycles.
- Supported and enhanced **identity services** including **Entra ID**, **MFA**, and **Conditional Access** policies to strengthen cloud security posture.
- Participated in an **on-call rotation**, responding to and resolving complex incidents impacting cloud platform stability and performance, adhering to ITIL processes.
- Implemented and monitored **cloud security controls** and assisted with compliance audits, contributing to best practice adoption within the team.

SKILLS

Cloud Platform – Azure, Compute, Networking, Identity, Storage

Infrastructure as Code – Terraform, Bicep

Scripting & Automation – PowerShell, Azure CLI

CI/CD – Azure DevOps, GitHub Actions

Identity & Access Management – Entra ID, MFA, Conditional Access

Operations & Security – ITIL, Incident Management, Problem Management, Change Management, Cloud Security, Compliance, Monitoring, Cost Optimisation

PROJECTS

Azure Environment Automation with Terraform

- Engineered a comprehensive **Infrastructure as Code** solution using **Terraform** to automate the deployment and management of Azure resources, including virtual machines, virtual networks, and storage accounts.
- Developed reusable Terraform modules for common infrastructure patterns, enabling consistent and rapid provisioning of environments for development and testing teams.
- Integrated Terraform deployments into an **Azure DevOps** pipeline, facilitating automated infrastructure updates and drift detection for enhanced environment stability.

Cloud Operations Monitoring and Scripting

- Created **PowerShell scripts** to automate health checks and performance monitoring of critical Azure services, reducing manual checks by 60%.
- Developed custom alerts and reporting dashboards within **Azure Monitor** to proactively identify and address potential issues before they impacted service availability.
- Managed and analyzed logs from various Azure resources using **Azure CLI** and Kusto Query Language (KQL) to aid in root cause analysis for incidents.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
