PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **CI/CD pipelines** using **GitHub Actions**, reducing deployment times by **30%** for core applications.
- Developed and managed **cloud infrastructure** on **AWS** using **Terraform**, ensuring consistent and repeatable deployments across development and production environments.
- Automated operational tasks and data processing workflows using **Python scripting**, handling approximately **2,000 daily events** for system monitoring and alerting.
- Collaborated with **software engineering teams** to integrate new features and resolve production issues, maintaining high availability for critical enterprise systems.
- Monitored system performance and **troubleshooted complex issues** across distributed applications, reducing critical incident resolution time by **15%**.
- Contributed to architectural discussions for **scalable cloud solutions**, focusing on security best practices and infrastructure resilience.
- Participated in **on-call rotations**, responding to and resolving production incidents to meet strict service level agreements.

SKILLS

Cloud Infrastructure – AWS, EKS, EC2, S3, IAM, RDS, Lambda, Terraform, Infrastructure as Code (IaC)

Containerisation & Orchestration – Kubernetes, Docker

CI/CD & Automation – GitHub Actions, GitLab CI/CD, Jenkins, Python, Bash, Scripting

Monitoring & Incident Response – Splunk, Dynatrace, CloudWatch, P1/P2 Incident Management, On-call Rotation

Languages & Databases – Java, Spring Boot, Python, SQL, PostgreSQL, MySQL, Oracle

Development Methodologies – Agile, Scrum, Git, Code Reviews

PROJECTS

Automated Cloud Infrastructure Deployment with Terraform

- Engineered an **Infrastructure as Code** solution using **Terraform** to provision and manage **AWS resources** including **EC2** instances, **S3** buckets, and **IAM** roles for a new microservice.
- Developed modular Terraform configurations that enabled a **40% reduction** in manual environment setup time and improved consistency across staging and production.
- Integrated Terraform into a **CI/CD pipeline** using **Jenkins** for automated testing and deployment of infrastructure changes, ensuring adherence to defined standards.

Kubernetes-based CI/CD Pipeline for Microservices

- Built and maintained a **CI/CD pipeline** for multiple microservices, orchestrating builds, tests, and deployments to a **Kubernetes** cluster (**EKS**) using **GitHub Actions**.
- Implemented automated rollbacks and health checks within the pipeline, contributing to a **20% improvement** in deployment success rates and reducing manual intervention.
- Configured **Docker** images and Kubernetes deployment manifests, managing container lifecycles and ensuring efficient resource utilization on the cluster.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
