PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, building REST APIs for inter-service communication and data exchange, handling approximately **1,500 requests per minute** during peak hours.
- Implemented persistence layers using **Hibernate** and **JPA** with **PostgreSQL**, optimizing database interactions and ensuring data integrity for core application modules.
- Wrote comprehensive **JUnit** and **Mockito** tests for new Java features, achieving over **85% code coverage** and reducing post-deployment defects by **20%**.
- Mentored two junior engineers on best practices for **Java** development and the **Spring framework**, guiding them through code reviews and complex bug fixes.
- Participated in daily Agile ceremonies, including sprint planning and daily stand-ups, providing technical estimations for new feature development and bug resolution.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and networking for production environments.
- Managed CI/CD pipelines using **Jenkins** and **Git**, automating build, test, and deployment processes to streamline the release cycle for backend services.

SKILLS

Backend – Java, Spring Boot, Spring Framework, Hibernate, JPA, JUnit, Mockito, Maven

Frontend – React, TypeScript, React Native

Cloud – AWS, EC2, S3, Lambda, CloudWatch, Docker

Database – PostgreSQL, MySQL, Oracle

DevOps – Jenkins, Git, CI/CD

Other – Node.js, Startup Environments, Linux

PROJECTS

Enterprise Java Microservice for Transaction Processing

- Designed and implemented a **Java Spring Boot** microservice to handle high-volume transaction data ingestion, processing over **5,000 transactions daily**.
- Integrated the service with a **PostgreSQL** database using **Hibernate** for data persistence, ensuring transactional integrity and efficient querying.
- Developed robust RESTful APIs for external system integration and deployed the service on **AWS**, managing configurations via environment variables.

Customer Order Management System Enhancement

- Enhanced an existing **Java** application by adding new features for customer order management, building new REST endpoints with **Spring Boot**.
- Collaborated with the business analysis team to gather requirements for order status updates and implemented corresponding logic, improving visibility for **stakeholders**.
- Authored detailed technical documentation and conducted knowledge transfer sessions with the support team, enabling them to handle common inquiries.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
