PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided day-to-day application support for critical business systems including ERP modules and operational platforms, resolving an average of **15-20 tickets** per week.
- Executed and monitored critical system processes and scheduled activities, ensuring successful completion for **over 50 distinct batch jobs** daily.
- Assisted with system upgrades and patching lifecycles for enterprise applications, coordinating testing phases and gathering feedback from **up to 8 business users** during UAT.
- Managed incident and service request queues within IT support teams, tracking and ensuring timely resolution of issues to meet defined **SLAs for P1 and P2 incidents**.
- Developed and maintained system documentation and support materials, including **25+ user guides** and troubleshooting runbooks for common issues.
- Performed hands-on hardware support, including building, imaging, configuring, and deploying **~10-12 laptops and desktops** monthly for new starters and refreshes.
- Configured and maintained **CI/CD pipelines** in Jenkins for Java Spring Boot applications, managing Git branching strategies and conducting code reviews for a team of 4 engineers.

SKILLS

Application Support – Business Applications, End-User Support, Incident Management, Service Request Management, Troubleshooting, User Access Management, System Upgrades, Patching, UAT

Database & Scripting – SQL Developer, PostgreSQL, MySQL, Oracle, Python Scripting, ETL, Data Pipelines, Scheduled Reporting

Cloud & Infrastructure – Azure, Azure Virtual Desktop, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux Shell Scripting, Cron Jobs

Development & CI/CD – Java Spring Boot, REST APIs, Jenkins, Git, Code Reviews

Hardware & Networking – Hardware Support, Laptop/Desktop Deployment, Asset Tracking, Networking Fundamentals, Connectivity Troubleshooting

Documentation & Collaboration – System Documentation, Procedures, Support Materials, Vendor Liaison, Business Users, Stakeholder Management

PROJECTS

Enterprise Application Support Dashboard

- Developed a Python-based application support dashboard aggregating logs from **Splunk and CloudWatch** to provide real-time status of critical enterprise systems.
- Implemented automated alerts for P1/P2 incidents, reducing manual triage time by an estimated **30%** and improving incident response speed.
- Integrated functionality to track key performance indicators (KPIs) and generate weekly operational reports for management review.

Automated Hardware Onboarding System

- Engineered a Python script to automate the initial setup and configuration of new laptops and desktops, integrating with **Active Directory** for user provisioning.
- Reduced the average time for new hardware deployment from **2 hours to 45 minutes** per machine.
- Created comprehensive documentation and runbooks for the IT support team on using the automated system for onboarding new employees.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
