PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed IT Helpdesk tickets, resolving and escalating issues for core business applications, ensuring adherence to service level agreements for a user base of approximately **2,000**.
- Configured and maintained **ERP** and membership platforms, ensuring data integrity and system stability in a production environment with strict change control processes.
- Developed and maintained comprehensive system documentation, including process maps and user guides, to facilitate knowledge transfer and system adoption across departments.
- Coordinated and performed first-line testing for system upgrades and patches, and facilitated User Acceptance Testing (UAT) to ensure successful deployments.
- Developed and delivered targeted training sessions to system users, enhancing their proficiency and consistency in utilising core business systems.
- Assisted in gathering and analysing business requirements for system improvements, contributing to the identification of efficiencies and enhancement opportunities for core platforms.
- Deployed and managed containerised applications using **Docker** on **AWS EC2** instances, ensuring reliable availability and performance for critical business services.

SKILLS

Core Business Applications – ERP, Membership Platforms

IT Operations & Support – IT Helpdesk, Ticket Management, SLA Management, Incident Response, Change Control, UAT Coordination, System Documentation, User Training

Database Management – SQL, Data Quality, Data Integrity

Cloud & Containerisation – AWS EC2, Docker

BI & Reporting – Power BI, Ad Hoc Reporting, Dashboards

PROJECTS

ERP System Integration and Support

- Integrated the **ERP system** with a legacy inventory management platform via **REST APIs**, streamlining data flow and reducing manual entry by an estimated **15%**.
- Developed Python scripts to automate data reconciliation tasks between the ERP and financial reporting databases, improving accuracy and reducing processing time by **4 hours** weekly.
- Authored detailed technical documentation and operational runbooks for the integrated system, supporting the transition to the production environment.

Business Intelligence Dashboard Development

- Designed and implemented interactive **Power BI dashboards** for key business stakeholders, visualising operational metrics and financial performance indicators.
- Developed complex **DAX measures** and Power Query transformations to aggregate data from multiple sources, providing actionable insights into membership engagement trends.
- Collaborated with business analysts to define reporting requirements and conducted UAT for dashboard releases, ensuring alignment with leadership expectations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
