

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed and resolved complex data discrepancies across multiple sources by performing **root cause analysis** and **web-based research**, leading to improved data integrity for **business applications**.
- Identified high-level **data trends** and patterns through **critical thinking** and **large dataset analysis**, providing insights that informed subsequent investigative actions.
- Executed **web-based research** to validate the quality of data, ensuring accuracy and reliability for downstream processing and reporting.
- Performed **software usability testing** on internal processing tools, providing detailed feedback to development teams that contributed to **UI/UX improvements**.
- Processed and validated information within **business applications**, ensuring adherence to established operational procedures and data quality standards.
- Collaborated within **cross-functional teams** to troubleshoot and resolve data-related issues, contributing to efficient problem-solving and timely issue resolution.
- Managed and maintained **database systems**, performing data validation and ad-hoc queries using **SQL** to support analytical tasks.

SKILLS

Data Analysis – Data analysis, Trend analysis, Root cause analysis, Critical thinking, Large datasets, Pattern identification

Research & Validation – Web research, Data quality validation, Information analysis

Tools & Platforms – Business applications, Spreadsheets, Database systems, iOS, macOS, Web-based maps

Programming & Scripting – SQL, Python, R

Methodologies – Agile, Scrum, Hybrid work model

PROJECTS

Data Validation and Trend Analysis for Enterprise Systems

- Developed and executed **SQL queries** to extract and validate data from multiple enterprise database systems, identifying inconsistencies that impacted reporting accuracy.
- Conducted in-depth **web research** to cross-reference and verify data points, resolving over 85% of identified discrepancies within the reporting period.
- Created **tabular reports** summarizing data trends and quality issues, which were presented to operational stakeholders to guide system improvements.

MSc Applied Data Analytics Capstone Project

- Designed and implemented a data analysis framework using **Python (pandas, NumPy)** and **R** to explore a large dataset of customer feedback.
- Built interactive **Power BI dashboards** to visualize key performance indicators and trends, enabling stakeholders to make data-informed decisions.
- Performed **statistical analysis** and hypothesis testing to identify significant factors influencing customer satisfaction, presenting findings to the academic board.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
