PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained REST APIs using **Java Spring Boot**, handling approximately 500 requests per minute for internal microservices.
- Implemented data validation and error handling for critical backend services, reducing production bugs by **15%** across the team's service portfolio.
- Contributed to the design and implementation of application features, participating in **Agile Scrum ceremonies** and sprint planning sessions.
- Wrote and executed unit tests using **JUnit**, achieving over **80% code coverage** for new Java modules and ensuring code quality.
- Collaborated with senior engineers to design and build application features, contributing to the implementation of **product architecture** and technical improvements.
- Participated in **code reviews** and team discussions, actively learning and applying engineering best practices to enhance code maintainability.
- Containerised backend services using **Docker** and managed deployment configurations within a **Kubernetes** cluster on AWS.

SKILLS

Languages – Python, Java, SQL

Frameworks/Libraries – Spring Boot, Django, Flask, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools/Other – REST APIs, Jira, Confluence, Splunk, Dynatrace, XML Processing

PROJECTS

Core Product Feature Enhancement (HCL Technologies)

- Developed new backend features for a core legal content management system using **Java Spring Boot** and **PostgreSQL**, supporting approximately 1,500 concurrent users.
- Integrated a new document processing module, enhancing the system's ability to handle complex legal workflows and reducing manual data entry time by **20%**.
- Wrote comprehensive unit and integration tests using **JUnit** to ensure system stability and reliability during deployment.

Automated Report Generation Pipeline (HCL Technologies)

- Engineered a **Python**-based ETL pipeline to automate the generation of daily operational reports from multiple relational databases (**PostgreSQL**, **MySQL**).
- Designed and implemented data transformation logic using **pandas**, ensuring data accuracy and consistency for over **50** distinct reporting metrics.
- Scheduled and managed pipeline execution using **cron jobs** on Linux servers, delivering timely reports to the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
