PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, building robust **RESTful APIs** for core platform functionality, including user authentication and transaction processing.
- Implemented complex data persistence logic using **Hibernate** and **JPA**, ensuring efficient data retrieval and manipulation for financial transactions across multiple relational databases.
- Designed and executed unit and integration tests for **Java** backend services using **JUnit** and **Mockito**, achieving over 90% code coverage for critical modules.
- Collaborated on sprint planning and technical estimation for new feature development within an **Agile/Scrum** framework, contributing to the delivery of bi-weekly release cycles.
- Contributed to the design and implementation of microservices interacting with **NoSQL databases**, focusing on partitioning strategies and indexing for performance.
- Participated in code reviews, providing constructive feedback to peers and junior engineers to maintain high code quality and adherence to architectural standards.
- Containerized backend services using **Docker** and managed deployments on **AWS EC2** instances, ensuring scalability and reliability of the cloud-native platform.

SKILLS

Backend Development – Java, Spring Boot, RESTful APIs, Hibernate, JPA, Microservices, JUnit, Mockito, Maven

Frontend Development – React Native, React

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins, CI/CD

Databases – PostgreSQL, MySQL, Oracle, NoSQL (DynamoDB concepts)

Agile & Collaboration – Agile, Scrum, Jira, Confluence, Code Reviews, Stakeholder Collaboration

Fintech Domain – Payments, Onboarding, KYC/AML, Wallets, Regulated Environments

PROJECTS

Core Banking Service with Java and Hibernate

- Developed a suite of **Java Spring Boot** services to manage core banking operations, including account creation and transaction logging.
- Integrated **Hibernate** for object-relational mapping, optimizing database interactions with **PostgreSQL** and reducing query times by approximately **30%**.
- Implemented asynchronous processing for high-volume transaction events using Kafka queues, ensuring reliable message delivery and fault tolerance.

Client Onboarding Workflow Automation

- Designed and built a **React Native** application flow to streamline the client onboarding process, reducing manual data entry for new customers.
- Integrated with backend **RESTful APIs** to capture and validate KYC/AML information, processing an average of **50** new client applications per week.
- Collaborated with business stakeholders to gather requirements and iterate on UI/UX, ensuring the tool met the needs of the compliance team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
