PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided 2nd level support for daily network infrastructure issues reported via the **ServiceNow** platform, resolving an average of **15 tickets** per week.
- Analyzed alerts and events from network management platforms, collaborating with senior engineers to resolve issues impacting **capital markets** operations.
- Managed network infrastructure projects from inception to completion, including configuration, deployment, and documentation for new site installations.
- Supported the installation and configuration of network systems across multiple sites, ensuring seamless integration with existing infrastructure.
- Developed and executed test plans for IT software and systems, identifying errors and proposing solutions to enhance quality and validation techniques.
- Examined IT systems for security threats and developed disaster recovery plans, reporting on and mitigating security breaches to maintain system integrity.
- Performed copper and fiber cable structure work, including installation and testing, within telecommunication rooms to ensure reliable network connectivity.

SKILLS

Networking – Routers, Switches, Firewalls, Load Balancers, OSPF, BGP, EIGRP, NAT, LACP, CDP, UDLD, DNS, DHCP, LAN, MAN, WAN, SD WAN, WiFi

Security – Network Security, Firewall Configuration, Threat Analysis, Disaster Recovery Planning, Security Breach Reporting

Cloud & Automation – Cloud Infrastructure Configuration, Ansible, Python, Network Automation

Network Management – Cisco ISE, Cisco DNAC, Solarwinds, Logic Monitor, NetBrain, OSI Layers 1-7 Troubleshooting

Telecommunications – Voice and Video Network Support, Copper Cable Installation, Fiber Cable Installation

PROJECTS

Network Infrastructure Upgrade Project

- Executed a comprehensive upgrade of core network infrastructure for a financial services client, replacing end-of-life routers and switches.
- Implemented new routing protocols (**OSPF, BGP**) and configured **firewalls** (Palo Alto) to enhance network security and performance, reducing latency by **18%**.
- Developed detailed documentation and runbooks for the new network configuration, facilitating smoother operations and future troubleshooting.

Automation of Network Monitoring and Alerting

- Developed **Python** scripts to automate the parsing of logs from network devices and management platforms (**Solarwinds, Splunk**).
- Created automated alerts for critical network events, reducing manual monitoring effort by an estimated **30%** and enabling faster incident response.
- Integrated scripts with a ticketing system (**ServiceNow**) to automatically generate incident tickets for high-priority network issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
