PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and maintained enterprise-scale **email security controls**, implementing policy refinements that reduced phishing attempts by **18%**.
- Operated and improved **endpoint and device security** platforms, integrating new EDR signatures that detected **~2,100** novel malware variants per quarter.
- Managed **data, identity, and access security controls**, contributing to the implementation of a new multi-factor authentication rollout impacting over **12,000** user accounts.
- Enhanced **cloud security controls and native services** on AWS, tuning security group rules and IAM policies to align with evolving threat intelligence.
- Collaborated with the SOC to tune SIEM rules, decreasing false positive alerts by **30%** and improving detection fidelity for advanced threat techniques.
- Developed and maintained operational runbooks for new cyber tooling deployments, streamlining the transition process for third-party managed security services.
- Automated security configuration management tasks using **Python scripting**, reducing manual effort for baseline cyber standard enforcement by an estimated **22%**.

SKILLS

Security Operations – Cybersecurity, Security Tooling, Incident Response, Threat Intelligence, SOC Collaboration, Vulnerability Management, MITRE ATT&CK; Framework

Platform Engineering – Endpoint Security (EDR/MDR), Email Security, Cloud Security (AWS), Network Security, Application Security, Identity and Access Management

Configuration & Governance – Configuration Management, Control Implementation, Policy Enforcement, Operational Effectiveness, Security Standards, Documentation, Audits

Scripting & Automation – Python, Bash, PowerShell

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools – Crowdstrike, Microsoft Purview, Palo Alto, Splunk, Dynatrace, Jenkins, Jira, Confluence, Git

PROJECTS

Enterprise Security Tooling Optimization (HCL Technologies)

- Enhanced the configuration and operational effectiveness of enterprise security tools, focusing on **endpoint detection and response (EDR)** and **email security** platforms.
- Automated the deployment of security baseline configurations across a fleet of **5,000+ devices** using **Python scripts** and Jenkins pipelines.
- Collaborated with the Security Operations Center (SOC) to analyze alert data, reducing false positives by **28%** and improving the fidelity of critical security events.

Cloud Security Control Enhancement (HCL Technologies)

- Strengthened **cloud security controls** on AWS by auditing and refining **IAM policies** and security group configurations, directly addressing findings from recent vulnerability scans.
- Developed detailed documentation for control intent and configuration rationale, supporting audit requirements and enabling faster incident triage for cloud-native security incidents.
- Assisted in the operational handover of new cloud security tooling, contributing to the creation of runbooks for monitoring and maintenance by the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
