PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed incident lifecycles from initial report to resolution for live hospital systems across the EU, adhering to ITIL best practices and resolving an average of **15-20 critical cases** per week.
- Provided direct end-user support for enterprise applications, troubleshooting issues related to software installation, device configuration, and service restoration, ensuring minimal disruption to daily operations for **thousands of users**.
- Contributed to continuous service improvement plans by documenting common technical issues and their resolutions in a knowledge base, reducing average resolution time for recurring incidents by **18%**.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements for system enhancements and supported User Acceptance Testing (UAT) for new service releases.
- Maintained and supported existing enterprise services, focusing on stability and operational efficiency through regular health checks and proactive monitoring using tools like **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data extraction and reporting tasks for operational dashboards, reducing manual effort by approximately **10 hours per month**.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, managing configuration and basic resource allocation.

SKILLS

Operating Systems – Linux, Windows Server

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Methodologies – Agile, Scrum, ITIL

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Developed automated Python scripts to streamline the process of log analysis and anomaly detection within enterprise applications, reducing manual review time by **30%**.
- Managed the production support for a suite of Java Spring Boot applications, responding to P1/P2 incidents and implementing fixes within strict SLA timelines.
- Refactored SQL queries for improved performance on PostgreSQL databases, resulting in a **15% reduction** in data retrieval times for key operational reports.

Customer Service Enhancement Dashboard (MSc Project)

- Designed and built interactive dashboards in **Power BI** to visualize customer support ticket volume, resolution times, and common issue categories.
- Extracted, transformed, and loaded data from multiple sources using **Power Query** and DAX measures for data modelling and reporting, providing insights to stakeholders.
- Presented key performance indicators and trends to a simulated customer service management team, facilitating data-informed decision-making for service improvements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
