PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the **basket production workflow** for multiple enterprise clients, ensuring timely and accurate completion of daily, weekly, and monthly accounting and reporting cycles.
- Performed **fund/client accounting** responsibilities, including determining net asset values, calculating fund performance, and allocating expenses for moderately complex funds.
- Executed **cash and asset reconciliations** for intricate accounts within assigned funds, ensuring appropriate allocation of account expenses and escalating atypical transactions.
- Drafted and reviewed **client reports** detailing fund performance, addressing client inquiries regarding accounting processes and report data.
- Contributed to the **achievement of team objectives** by supporting more junior team members in their daily tasks and assisting with problem resolution during accounting and reporting.
- Assisted in the **planning, testing, and implementation** of internal and client-driven projects, ensuring adherence to BNY standard policies, procedures, and controls.
- Containerized and deployed **Java Spring Boot** applications to **AWS EC2** instances using **Docker**, managing CI/CD pipelines with **Jenkins** for efficient code rollouts.

SKILLS

Accounting & Finance – ETF Fund Accounting, Net Asset Value (NAV) Calculation, Fund Performance Calculation, Expense Allocation, Cash Reconciliation, Asset Reconciliation, Basket Production Workflow, Client Reporting, Financial Services Operations

Core Skills – Analytical Skills, Problem-Solving, Attention to Detail, Organization, Communication Skills, Time Management, Deadline Management, Flexibility, Independent Work, Teamwork

Technical Skills – Microsoft Excel, Microsoft Word, Microsoft PowerPoint, SQL, Java, Spring Boot, Docker, AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Python

Methodologies – Agile, Scrum, Change Management, Incident Response, Service Improvement Plans

Tools – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn

PROJECTS

ETF Fund Accounting & Reporting Automation (HCL Technologies)

- Developed Python scripts to automate the generation of **daily fund performance reports** for internal review, reducing manual effort by an estimated **30%**.
- Built reconciliation modules in **Java Spring Boot** to validate transaction data against external feeds, improving data accuracy for **cash and asset reconciliations**.
- Created interactive **Power BI dashboards** to visualize key fund accounting metrics and operational workflows, enabling faster identification of process bottlenecks for the client operations team.

Financial Operations Data Pipeline Enhancement (HCL Technologies)

- Engineered a **Python ETL pipeline** to ingest and transform transaction data from multiple sources into a centralized PostgreSQL database, supporting downstream **transaction monitoring**.
- Implemented **SQL** queries and stored procedures for data validation and cleansing, ensuring the integrity of financial data used in operational dashboards and reconciliation workflows.
- Designed and maintained CI/CD pipelines using **Jenkins** for automated testing and deployment of data processing scripts, increasing deployment frequency by **40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
