PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical support and acted as the primary point of contact for post-integration vendor issues, addressing customer calls to identify and resolve integration problems within service level agreements.
- Performed basic troubleshooting of integration issues by becoming proficient in **Toast systems and tools** such as **Splunk** and **Postman**, documenting support tickets and escalating complex cases to senior experts.
- Gathered customer and vendor feedback on integration performance and product issues, translating this input into actionable insights for continuous improvement across product and support teams.
- Developed and maintained **Python scripts** to automate data extraction and reporting tasks, reducing manual effort for the operations team by approximately **15%**.
- Managed incident response for critical enterprise applications, analyzing logs in **Splunk** and **Dynatrace** to resolve P1/P2 incidents within strict SLA targets.
- Contributed to the development of **Java Spring Boot** REST APIs for cross-service data exchange, implementing request validation and ensuring robust error handling.
- Containerized multiple Java applications using **Docker**, deploying them to **AWS EC2** instances and configuring basic resource limits for predictable performance.

SKILLS

Support Tools – Splunk, Postman, Jira, Confluence, Dynatrace, CloudWatch

Programming Languages – Python, Java, SQL, French, English

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda)

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Jenkins, Git

PROJECTS

API Integration Troubleshooting Playbook

- Developed a comprehensive troubleshooting guide for common API integration issues, detailing diagnostic steps using **Splunk** logs and **Postman** for request validation.
- Authored runbooks for the support team to streamline the process of identifying root causes for failed transactions and connection errors, reducing average resolution time by **20%**.
- Collaborated with senior engineers to document escalation paths and best practices for handling complex cross-system integration failures.

Automated Transaction Reconciliation Tool

- Engineered a **Python**-based tool to automate the reconciliation of transaction data between two disparate systems, comparing record counts and key fields.
- Implemented data validation checks using **pandas** to identify discrepancies, flagging approximately **300** records per week for manual review.
- Integrated the tool into a scheduled reporting workflow using cron jobs on a **Linux** server, providing weekly reconciliation summaries to the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
