PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained operational reports and data structures using **SQL** and **Excel**, ensuring data integrity for daily and weekly performance analysis.
- Automated data collation for effectiveness measures across Planning and Service Delivery using **Python scripting**, reducing manual effort by approximately 30%.
- Designed and delivered new reporting through **Power BI**, creating interactive dashboards that visualized key operational KPIs for senior stakeholders.
- Conducted ad-hoc analysis on performance variance and improvements to planned forecasts or schedules, providing actionable insights to operational teams.
- Managed the collation of effectiveness measures across Planning and Service Delivery, ensuring timely and accurate reporting to support strategic decision-making.
- Collaborated closely with operational teams to ensure well-defined, clearly communicated, and effectively executed plans, translating business needs into analytical requirements.
- Containerized reporting services using **Docker** and deployed to an **AWS EC2** environment, improving deployment consistency and reducing setup time for new reporting modules.

SKILLS

Reporting & Analysis – Power BI, Tableau, Excel, VBA, PowerPoint, Data Mining, KPI Development, Performance Management

Data Management – SQL, MSQL, PostgreSQL, MySQL, Oracle, Data Warehousing, Data Modelling, ETL, Power Query

Programming & Scripting – Python, Java, Spring Boot, REST APIs, R, RStudio

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Business Systems – ERP, Jira, Confluence, Agile, Scrum

PROJECTS

Workforce Management Reporting Suite (HCL Technologies)

- Developed a suite of **Power BI** dashboards to monitor call queue performance, staffing adherence, and shrinkage analysis for financial-services operations.
- Engineered **Python** scripts to automate the extraction and transformation of data from multiple sources, feeding into the central reporting database.
- Provided direct analytical support to WFM and Operations Administration teams, ensuring system information accuracy and timely delivery of agreed operational KPIs.

Customer Performance Analytics Dashboard (MSc Applied Project)

- Built interactive **Power BI** dashboards visualizing agent KPIs such as AHT, Resolve Rate, and Transfer Rate for a simulated call center environment.
- Applied statistical methods using **R** to analyze performance variance and identify areas for improvement in agent efficiency and customer satisfaction scores.
- Modeled data using **SQL** and **Power Query**, creating relationships and calculating DAX measures to support detailed performance insights delivered to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
