PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and developed **Java Spring Boot** REST APIs for inter-service communication, implementing robust error handling and request validation patterns.
- Designed and implemented data persistence layers using **Hibernate** and **JPA**, ensuring data integrity and efficient query execution against enterprise databases.
- Wrote comprehensive **JUnit** and **Mockito** tests for Java components, achieving over 85% code coverage and improving application stability during releases.
- Integrated **coding assistants** like GitHub Copilot into the development workflow, increasing code generation speed and test case authoring efficiency by approximately 30%.
- Participated in **Agile/Scrum** ceremonies, including sprint planning and daily stand-ups, contributing to technical estimations and feature delivery.
- Deployed containerized applications using **Docker** and managed configurations within a **Kubernetes** cluster, streamlining the build and deployment process.
- Developed **Python** scripts to automate data extraction and transformation tasks for reporting purposes, reducing manual processing time for the operations team by 4 hours weekly.

SKILLS

Languages – Java, Python, SQL, C#

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, React, Angular

Databases – PostgreSQL, SQL Server, MySQL, Oracle

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Development Tools – Git, Jenkins, Jira, Confluence, GitHub Copilot, .NET Core, Node.js

Methodologies – Agile, Scrum

PROJECTS

Cloud-Native Java Microservices for Infrastructure Management

- Developed a suite of **Java Spring Boot** microservices to manage configuration data for cloud infrastructure components, enhancing system resilience.
- Implemented a **PostgreSQL** data model using **Hibernate** to store and retrieve infrastructure state information, supporting complex querying needs.
- Containerized services with **Docker** and orchestrated deployments on an **AWS EKS** cluster, establishing a scalable and maintainable cloud environment.

Automated Data Pipeline for Public Infrastructure Reporting

- Created a **Python**-based ETL pipeline using **pandas** to ingest and process data from disparate public infrastructure databases.
- Developed scheduled **SQL Server** jobs and associated **Python** scripts to aggregate data, generating weekly operational reports for stakeholders.
- Implemented data validation checks within the pipeline to ensure accuracy and consistency of the generated reports, reducing data error rates by 15%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
