PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided first-line application support for **ERP systems** and **project management tools**, resolving an average of **15 critical tickets weekly** within SLA targets.
- Developed **Python scripts** to automate ETL processes for reporting, reducing manual data aggregation time by **40%** for the finance operations team.
- Managed software installations and upgrades for key business applications, coordinating with **external vendors** for seamless deployment to **50+ users**.
- Enhanced system integration between **Java Spring Boot services** and **PostgreSQL databases**, ensuring data consistency across finance and engineering platforms.
- Assisted in system upgrades and data migrations for enterprise platforms, contributing to a successful rollout of a new **HR system module** impacting **200+ employees**.
- Maintained data protection and ensured compliance with **GDPR** and internal IT security standards by implementing access controls and audit trails for critical systems.
- Containerized backend services using **Docker** and deployed them to **AWS EC2 instances**, improving deployment consistency and reducing environment setup time by **30%**.

SKILLS

Programming Languages – Python, Java, SQL, JavaScript, C#

Web Technologies – Spring Boot, REST APIs, React, ASP.NET, Django

Databases – PostgreSQL, MySQL, Oracle, SQL Server, NoSQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Business Systems – ERP Systems, CAD Software Integration, Project Management Tools, Financial Platforms, HR Platforms

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace, GDPR Compliance

PROJECTS

Enterprise Systems Integration & Automation (HCL Technologies)

- Developed a **Java Spring Boot** application to integrate disparate enterprise systems, including an **ERP** module and a custom CRM, via REST APIs.
- Built **Python scripts** for automated data validation and reconciliation between the integrated systems, catching **~95%** of data discrepancies before end-of-day reporting.
- Containerized the integration service using **Docker** and deployed it onto an **AWS EC2** environment, establishing a CI/CD pipeline with **Jenkins** for continuous delivery.

Operational Dashboard for Business Process Monitoring

- Engineered a **Python Flask** backend to collect and aggregate data from multiple business operation sources, including project delivery and financial platforms.
- Created interactive dashboards using **Power BI**, visualizing key performance indicators and system health metrics for management stakeholders, enabling quicker decision-making.
- Implemented automated alerting mechanisms based on predefined thresholds within the dashboard, notifying operations teams of potential issues in **real-time**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
