PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical guidance and problem-solving for enterprise customers using the WalkMe Digital Adoption Platform via email, live chat, and screen shares, ensuring adherence to **SLA commitments**.
- Developed deep product knowledge of WalkMe's features, acting as a **trusted advisor** to customers to promote self-sufficiency and optimal product use.
- Diagnosed and resolved customer-reported issues by analyzing **application logs**, utilizing **browser developer tools**, and performing root cause analysis for complex technical challenges.
- Collaborated with internal engineering and product teams to report bugs, suggest feature enhancements, and contribute to the knowledge base for customer self-service.
- Managed a queue of technical support tickets, prioritizing and escalating issues to ensure prompt resolution and maintain high **customer satisfaction**.
- Articulated technical solutions and best practices clearly to diverse customer audiences during **conference calls** and project discussions.
- Containerized support tooling and diagnostic utilities using **Docker**, facilitating consistent deployment across development and testing environments.

SKILLS

Customer Support – Technical Support, Problem-Solving, Customer Service, Communication, SLA Management, Customer Satisfaction, Troubleshooting

Web Technologies – HTML, CSS, jQuery, JavaScript, Browser Developer Tools

Cloud & DevOps – Docker, AWS (EC2, S3, CloudWatch), Jenkins, Git

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Customer Onboarding Automation for SaaS Platform

- Developed a Python-based automation suite to streamline the initial setup and onboarding process for new SaaS customers, reducing manual configuration time by **30%**.
- Integrated with customer account APIs to provision resources and configure initial settings based on provided customer profiles, ensuring data integrity.
- Created comprehensive runbooks and initial troubleshooting guides for common onboarding issues, empowering customer success teams and reducing support escalations.

Internal Tooling for Production Issue Triage

- Built a Java Spring Boot application to aggregate alerts from various monitoring systems (Splunk, Dynatrace) into a centralized dashboard for P1/P2 incident triage.
- Implemented REST APIs for receiving and processing alert data, with a focus on low latency and high availability to ensure real-time status updates.
- Wrote **JUnit tests** for core components, achieving over **85% code coverage** for the critical alert processing logic.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
