PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed user identity and access permissions across **Entra ID** environments, implementing granular role-based access controls for **Microsoft 365** services.
- Administered **Azure networking** components including virtual networks, NSGs, and VPN Gateways to ensure secure and reliable connectivity for multiple client environments.
- Developed and deployed **PowerShell scripts** to automate routine operational tasks, reducing manual intervention time for cloud resource management by approximately **30%**.
- Provided level 2 support for cloud and endpoint issues, resolving approximately **50 tickets** per week across Azure infrastructure and Microsoft 365 platforms.
- Supported the configuration and management of **Windows endpoints** using Intune, ensuring policy compliance and efficient device deployment for enterprise clients.
- Participated in the deployment and lifecycle management of **Azure Virtual Desktop** environments, including host pools, session hosts, and FSLogix profiles.
- Containerised core Java applications using **Docker** and managed their deployment on **AWS EC2** instances as part of a CI/CD pipeline improvement initiative.

SKILLS

Cloud Platforms – Microsoft Azure, AWS

Microsoft 365 – Entra ID, Teams, SharePoint, Exchange Online, Intune

Azure Services – Azure Virtual Desktop, Azure Networking, VPN Gateways, NSGs, Virtual Networks

Scripting & Automation – PowerShell, Azure CLI, Shell Scripting

Programming Languages – Java, Spring Boot, Python, SQL

DevOps & CI/CD – Docker, Jenkins, Git

Operating Systems – Linux, Windows

PROJECTS

Azure Infrastructure Automation and Management

- Automated the provisioning and configuration of **Azure resources** including virtual machines, storage accounts, and network security groups using **PowerShell** scripts.
- Developed a framework for managing **Entra ID** user accounts and group memberships, streamlining onboarding processes for new employees and reducing manual setup time by **40%**.
- Containerised internal Java Spring Boot services with **Docker** for consistent deployment across development and production environments on **AWS**.

Microsoft 365 Environment Hardening and Support

- Implemented security best practices and access controls across **Microsoft 365** services, including Exchange Online and SharePoint Online, to align with enterprise security policies.
- Built custom dashboards in **Power BI** to visualize support ticket trends and resolution times for Microsoft 365-related incidents, enabling targeted improvements in support delivery.
- Provided technical guidance and support to internal teams on the effective use of **Microsoft Teams** features and collaboration tools.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
