PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production support for enterprise applications, focusing on **SLA management** and leading **P1/P2 incident response** using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data pipelines and scheduled reporting, improving data processing efficiency by **15%**.
- Executed complex SQL queries for data validation and performed schema changes across **PostgreSQL** and **Oracle** databases.
- Designed and implemented **REST APIs** using **Java Spring Boot** to support new feature development and enhance existing services.
- Engineered automation pipelines for tasks such as certificate renewal and compliance reporting, integrating **Ansible** and **XLR templates**.
- Implemented robust logging, monitoring, and alerting standards using **Dynatrace** and **Splunk** configuration to ensure proactive issue detection.
- Collaborated with global development teams across multiple time zones, providing technical guidance and mentoring to junior engineers on **reliability engineering** practices.

SKILLS

Site Reliability Engineering – SRE, Incident Management, Postmortems, MTTR, Alerting, Observability

DevOps Tools – Ansible, Jenkins, Groovy, Shell Scripting, Bitbucket, Git, XLR

Cloud Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker

Networking & Systems – NGINX, gRPC, L1-L7, Load Balancers, BIG-IP F5, TCP Dumps, Heap Dumps

Security & Compliance – Certificate Lifecycle Management, Mutual TLS, SSL Handshake, SSH Keys, Encryption Standards, ITSM, PCI Compliance

Authentication & Authorization – Active Directory, SAML, LTPA, SSO, OAuth

Programming Languages – Java, Spring Boot, Python, SQL

PROJECTS

Production Operations Dashboard Enhancement

- Enhanced a payments operations dashboard by implementing real-time transaction monitoring and operational alerting for failed payment messages, reducing manual oversight by **40%**.
- Developed Python scripts for automated data ingestion and validation from various financial sources into the dashboard's PostgreSQL data store.
- Collaborated with business analysts and operations teams to gather requirements, support UAT, and triage post-implementation issues for critical financial services.

Automated Compliance Reporting Pipeline

- Built an automated pipeline using **Python** and **Ansible** to generate compliance reports from system logs and database records, significantly reducing manual effort.
- Integrated the pipeline with **Jenkins** for scheduled execution and established alerting mechanisms via **Splunk** for report generation failures.
- Implemented secure data handling procedures and audit trails for generated reports, ensuring adherence to regulatory awareness standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
