PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and critically assessed **AI-generated outputs** for quality and clarity, identifying inconsistencies and providing nuanced feedback to inform model improvements across diverse content types.
- Applied structured **evaluation guidelines** and scoring criteria to maintain high accuracy and consistency in assessments, ensuring reliable and actionable results for model enhancement.
- Contributed to the continuous enhancement of evaluation workflows and best practices by providing detailed feedback on AI system performance and reliability.
- Developed and refined **quality standards** and review processes in collaboration with cross-functional teams, ensuring alignment with project objectives and customer expectations.
- Provided **insightful, nuanced feedback** on AI-generated content, focusing on usability and overall user experience to guide model training and development.
- Supported the development of **training data** that directly enhances AI system performance and reliability, ensuring diverse and representative datasets.
- Containerized evaluation services using **Docker** and deployed them to **AWS EC2** instances, ensuring scalable and reliable execution of assessment tasks.

SKILLS

AI/ML – AI Evaluation, Generative AI, LLM, AI Training Data, Model Improvement

Content & Quality Assurance – Content Review, Quality Assessment, Usability Testing, User Experience, Editorial Judgment, Critical Thinking

Collaboration & Communication – Cross-functional Teams, Written Communication, Verbal Communication, Feedback Delivery, Process Refinement

Development & Operations – Docker, AWS EC2, CI/CD, Scripting

Core Skills – Reading Comprehension, Attention to Detail, Observational Skills, Reliability, Adaptability

PROJECTS

AI Content Quality Assessment Framework

- Designed and implemented a structured framework for evaluating **AI-generated text and visual content**, establishing clear guidelines for quality, accuracy, and user experience.
- Developed detailed scoring criteria and feedback mechanisms to identify specific areas for model improvement, directly contributing to enhanced AI output reliability.
- Collaborated with a hypothetical product team to refine the evaluation process, ensuring consistency and actionable insights for the AI development cycle.

Automated Data Annotation Pipeline for ML Training

- Engineered a **Python**-based pipeline to automate the annotation of diverse datasets for machine learning model training, improving efficiency by **30%**.
- Integrated **pandas** and **NumPy** for data manipulation and pre-processing, ensuring clean and structured input for downstream ML tasks.
- Implemented basic error handling and logging for the annotation process, supporting the creation of high-quality training data for AI systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
