PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and developed scalable web interfaces using **JavaScript** and **TypeScript**, translating complex requirements into clean, reusable code components.
- Implemented best practices in frontend engineering, including rigorous **code reviews** and integration into **CI/CD** pipelines for efficient deployment.
- Ensured cross-browser compatibility and optimized web applications for maximum **speed and scalability** across diverse user environments.
- Collaborated closely with designers, product managers, and backend engineers to deliver high-quality, user-centric solutions within a **remote-first** team structure.
- Troubleshoot, debugged, and enhanced existing applications, improving **user satisfaction** and ensuring optimal performance through iterative development.
- Contributed to building accessible and **responsive web applications**, focusing on a keen eye for detail and delivering outstanding user experiences.
- Managed containerized frontend services using **Docker** and deployed them to a Kubernetes cluster, configuring resource limits for predictable rollout.

SKILLS

Frontend Core – JavaScript, TypeScript, HTML5, CSS3, Responsive Design, Accessibility

Frameworks/Libraries – React, Angular, Node.js, NestJS

Backend/API Integration – REST APIs, PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Observability/Support – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Customer-Facing Web Application Development

- Developed a **customer-facing portal** using **React** and **TypeScript** to manage user profiles and application settings, handling approximately 1,500 daily active users.
- Integrated RESTful APIs to fetch and display dynamic data, ensuring efficient data retrieval and rendering for a seamless user experience.
- Implemented a component library based on design specifications, improving code reusability and maintaining visual consistency across the application.

Internal Dashboard and Automation Tool

- Built an internal dashboard using **Angular** and **JavaScript** to monitor key application metrics and support operational teams.
- Developed **Python** scripts to automate data ingestion and report generation for the dashboard, reducing manual effort by 40%.
- Containerized the application with **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
