+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and refined **thousands of video annotations**, ensuring accuracy in describing hand movements and object interactions for AI model training.
- Validated and corrected **action timing boundaries** across extensive video review sessions, maintaining focus and precision for annotation quality.
- Assessed and edited captions for **atomicity**, confirming each label represented a single, independent action according to project rubrics.
- Verified correct identification of **left versus right hand usage** in annotated video segments, contributing to detailed visual discrimination.
- Flagged low-quality, ambiguous, or incomplete labels for rework, directly providing **actionable feedback** to enhance annotation models.
- Adhered to established annotation rubrics and structured review pipelines, demonstrating strong **process adherence** and incorporating prompt feedback.
- Provided clear and concise written feedback on annotation quality and model performance, supporting team leads in resolving edge cases and improving datasets.

SKILLS

Video Analysis – Hand Movement Description, Object Interaction Analysis, Action Timing, Caption Atomicity, Left/Right Hand Identification

Quality Assurance – Annotation Refinement, Label Validation, Rubric Adherence, Process Adherence, Ambiguity Flagging

Tools & Platforms – Web-based Annotation Tools, Time-coded Video Platforms

Communication – Written Feedback, Verbal Feedback, Clear Captioning

Work Ethic – Attention to Detail, Sustained Focus, Autonomy, Daily Throughput Targets

PROJECTS

AI Video Annotation Quality Assurance Pipeline

- Developed a systematic process for reviewing and correcting AI-generated video annotations, focusing on precise descriptions of human actions and object interactions.
- Implemented checks for action timing accuracy and caption atomicity, ensuring each labeled event was distinct and correctly bounded within the video timeline.
- Provided detailed feedback on label quality to improve the underlying AI models, contributing to a more robust dataset for training next-generation AI systems.

Video Content Moderation & Labeling Accuracy

- Performed detailed visual discrimination on repetitive video content, identifying subtle errors in hand movements and object interactions.
- Maintained high labeling quality by strictly adhering to established annotation rubrics and project-specific guidelines for content moderation.
- Collaborated with team leads to resolve edge cases and flag ambiguous or incomplete labels, ensuring overall dataset integrity for AI training.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
