HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Embedded with client teams to deploy and scale **AI platforms** like **OpenAI** and **Anthropic** within enterprise environments, owning production outcomes including time-to-value and reliability.
- Architected and governed end-to-end **AI solutions** encompassing identity, data, security, and platform layers, translating technical designs into measurable business impact for CTOs and CISOs.
- Developed reusable **deployment patterns** and accelerators for client adoption, enabling their teams to independently manage AI capabilities post-engagement.
- Led design workshops and **code-with sessions** with client engineering leadership to accelerate AI platform adoption and integration.
- Designed and deployed **agentic solutions** incorporating context engineering and RAG patterns into production workflows, ensuring operational reliability and scalability.
- Managed production deployments using **CI/CD pipelines** and **infrastructure as code** (Terraform, Helm), ensuring consistent and reliable system operation.
- Containerized and deployed **AI services** to cloud environments (AWS EKS) using **Docker** and **Helm**, establishing monitoring and debugging protocols for production systems.

SKILLS

AI Platforms – OpenAI, Anthropic, Google AI, Microsoft Azure AI, Salesforce Einstein, SAP AI, Palantir Foundry

AI Concepts – Agentic Solutions, Orchestration, Context Engineering, RAG, LLM, Generative AI

Cloud & DevOps – AWS, Kubernetes, Docker, Terraform, Helm, CI/CD, Serverless

Programming Languages – Python, Java, SQL

Enterprise Systems – APIs, Microservices

PROJECTS

Enterprise AI Platform Deployment for Client Value

- Embedded with a financial services client's data science team to deploy a **Generative AI** solution for internal knowledge management.
- Developed reusable **deployment patterns** and operational playbooks for the client's engineering team, leading to a 40% reduction in onboarding time for new use cases.
- Instrumented the deployed **AI platform** with logging and monitoring using **Splunk**, enabling proactive issue detection and reducing P1 incidents by 30%.

AI Orchestration Layer with RAG and Context Engineering

- Engineered an **AI orchestration layer** in **Python** using **FastAPI** to manage multi-provider LLM pipelines and integrate with enterprise data sources via **RAG**.
- Implemented advanced **context engineering** techniques to improve response relevance for an internal AI assistant prototype, achieving a 20% uplift in user satisfaction scores from pilot users.
- Containerized the **AI service** with **Docker** and deployed it to an **AWS EKS** cluster, configuring **Helm** charts for automated rollouts and scaling.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
