## PROFESSIONAL EXPERIENCE — 3.5+ YEARS

**Trust & Safety Agent — Accenture, Dublin, Ireland** Jul 2026 – Present

- Review, classify, and action user-generated content against a large-scale online platform's **community standards** and policies.
- Investigate and resolve complex content issues, relaying findings to the broader **Trust and Safety** team.
- Develop and execute prompt strategies to interrogate large language models for responsible AI **policy** adherence.
- Analyze model responses for appropriateness, refusal, or disclaimers, ensuring alignment with client guidance and **quality** standards.

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed Java Spring Boot applications, building REST APIs for data integration and system interactions.
- Implemented SQL queries for ad-hoc data validation and schema modifications supporting application logic.
- Contributed to feature development and bug fixes within enterprise applications, maintaining service integrity.
- Managed production support for enterprise applications, responding to P1/P2 incidents within strict SLAs.
- Monitored application health using Splunk and CloudWatch, identifying and documenting anomalies for resolution.
- Handled **escalations** from operations teams, triaging issues and communicating status to stakeholders.
- Maintained runbooks and documentation for incident response, ensuring consistent **policy enforcement**.

## SKILLS

**Content Moderation & Policy Enforcement** – community standards, policy guidelines, content review, policy enforcement, classification, user-generated content, graphic content, hate speech, harassment, scams, inauthentic behaviour.

**Responsible AI & LLM Testing** – generative AI, responsible AI, prompt strategies, model response analysis, policy adherence, risk assessment.

**Investigation & Escalation** – investigate, escalate, resolve, abuse cases, emerging abuse trends, complex content issues, stakeholder communication, triage.

**Technical Proficiency** – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Splunk, Dynatrace, Power BI, Tableau, R, pandas, NumPy, scikit-learn.

**Analytical & Critical Thinking** – risk assessment, data analysis, information synthesis, critical thinking, decision-making, trend analysis, anomaly detection, quality assurance, accuracy, calibration.

**Communication & Culture** – Hebrew, English, communication, comprehension, cultural awareness, internet culture, political and social situations.

## PROJECTS

**Online Ad Fraud Detection Analysis (MSc Data Analytics)**

- Analyzed large datasets using Python (pandas, scikit-learn) to identify patterns indicative of fraudulent online advertising activity.
- Developed Power BI dashboards to visualize campaign performance and highlight suspicious anomalies for further investigation.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
