HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Shipped new features and resolved defects in the **Pandora and SiriusXM mobile applications**, contributing to the native iOS codebase.
- Defined and refined **call flows and interfaces** between the mobile client and backend services, ensuring seamless data exchange.
- Modified mobile application software code and wrote **proof-of-concept applications** to explore new technical approaches.
- Collaborated with senior team members to generate detailed **task breakdowns** and estimations within an Agile framework.
- Participated in comprehensive **code reviews** and owned the development of software coding standards and documentation for mobile client features.
- Facilitated the **troubleshooting of pre- and post-production issues** by working closely with the development team and analyzing application logs.
- Containerized mobile application services using **Docker** and deployed them to a **Kubernetes** cluster for improved scalability and manageability.

SKILLS

Mobile Development – Swift, Objective-C, iOS SDK, Xcode, MVC, MVVM

Backend Integration – Web Services, HTTP Protocol, Service-Oriented Architecture

Testing Frameworks – XCUnit

Cloud & Orchestration – Docker, Kubernetes, AWS

Methodologies – Agile, Scrum

Databases – Data Persistence Fundamentals

PROJECTS

SiriusXM Mobile Feature Enhancement

- Implemented new user-facing features for the **SiriusXM mobile app**, focusing on enhancing the playback experience and integrating with backend APIs.
- Wrote unit tests using **XCUnit** to ensure code quality and maintainability, achieving over 85% code coverage for new modules.
- Collaborated with product managers to translate feature requirements into technical specifications for the iOS development team.

Pandora App Performance Optimization

- Analyzed and optimized the performance of the **Pandora mobile application**, identifying and resolving bottlenecks in UI rendering and data loading.
- Refactored Objective-C code sections to **Swift**, improving code readability and maintainability while reducing memory footprint by approximately 15%.
- Worked with backend engineers to define and integrate new RESTful APIs, improving data retrieval efficiency for user content.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
