HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed new product and process concepts, fabricating prototypes using **Solid Edge** to validate feasibility for quoting and development.
- Managed project timelines and technical deliverables for new product introductions, ensuring alignment with cost targets and quality standards for medical device components.
- Provided direct technical support to Sales and Marketing teams, assisting in the creation of accurate and competitive quotations for customer proposals.
- Collaborated with Production, Quality, and Technical teams to facilitate the transfer of new products to manufacturing, supporting validation protocols and staff training.
- Drove continuous improvement initiatives within the R&D; team, applying **Lean tools** such as 5S and DMAIC to optimize development workflows.
- Mentored and supported junior engineers and technical staff on product development processes and best practices, fostering knowledge sharing within the team.
- Ensured design and development activities integrated compliance with **ISO 45001**, **ISO 14001**, and **ISO 50001** standards for health, safety, environmental, and energy management.

SKILLS

CAD & Design – Solid Edge, Product Drawings, Process Development, Prototyping

Project Management – Timelines, Cost Targets, Technical Deliverables, Quality Compliance

Medical Devices – Extrusion-based Catheter Assemblies, Medical Device Manufacturing, Quality Systems

Lean & Continuous Improvement – DMAIC, 5S, Six Sigma, Lean Tools

Software & Tools – Microsoft Office Suite (Excel, PowerPoint, Word), Jira, Confluence

Engineering Principles – Biomedical Engineering, Mechanical Engineering, Manufacturing Processes, Automation

PROJECTS

Medical Device Component Design & Prototyping

- Developed novel designs for a new class of medical device components, creating detailed **product and tooling drawings** in **Solid Edge**.
- Fabricated and tested multiple functional prototypes, iterating on designs based on performance data and material properties to meet target specifications.
- Collaborated with a cross-functional team to define manufacturing process parameters and ensure design for manufacturability for a new product line.

New Product Introduction Process Optimization

- Streamlined the new product introduction (NPI) process by implementing standardized documentation templates and checklists, reducing average documentation time by **15%**.
- Coordinated UAT and validation activities for newly developed products, gathering feedback from stakeholders and incorporating necessary adjustments.
- Documented and presented process improvement proposals using **PowerPoint**, contributing to a more efficient R&D; workflow.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
