PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices, developing REST APIs for cross-service data exchange and integrating request validation patterns.
- Developed and maintained **Hibernate** entities and persistence logic for core application modules, ensuring data integrity across relational database transactions.
- Engineered **Java** applications using object-oriented design principles and JUnit for unit testing, with Maven for dependency management and build automation.
- Collaborated with experienced engineers to design and build scalable services in a **distributed computing environment**, contributing to fundamental industry changes.
- Worked in an **agile** environment, participating in sprint planning, technical estimation, and daily stand-ups to deliver high-quality software.
- Developed solutions to run predictions on **distributed systems**, gaining exposure to innovative technologies at incredible scale and speed.
- Containerized **Java Spring Boot** applications using **Docker** and deployed to a managed **Kubernetes** cluster (EKS), configuring basic resource limits for predictable rollouts.

SKILLS

Languages – Java, Python, SQL, C++, Perl

Frameworks/Libraries – Spring Boot, Hibernate, Spring Cloud, JUnit, Mockito, scikit-learn, pandas, NumPy, FastAPI, Flask

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, Linux, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle

Tools – Jira, Confluence, Splunk, Dynatrace

Concepts – Object-Oriented Design, Algorithms, Data Structures, Complexity Analysis, Distributed Systems, Scalability, Security, Agile Methodologies

PROJECTS

Distributed Systems Orchestration Service (HCL Technologies)

- Developed a **Java Spring Boot** service responsible for managing the lifecycle of distributed worker nodes, communicating via REST APIs.
- Implemented data persistence using **Hibernate** and **PostgreSQL** to track worker status, task assignments, and historical performance metrics.
- Integrated the service with **AWS Lambda** for event-driven scaling and **CloudWatch** for operational monitoring and alerting.

Customer Integration Framework (HCL Technologies)

- Built a **Python** framework to facilitate integration with enterprise customer systems, enabling data synchronization via RESTful interfaces.
- Developed reusable **FastAPI** modules for common data transformation and validation tasks, improving onboarding efficiency for new clients by an estimated **15%**.
- Containerized the framework components using **Docker** for consistent deployment across development and staging environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
