HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Automated network device configuration deployments and validation using **Python scripting**, reducing manual configuration errors by **~18%** across a fleet of 500+ routers.
- Designed and implemented **IPSec tunnels** and **application-aware routing policies** on Cisco SDWAN devices to optimize traffic flow for critical business applications.
- Developed reusable **Python modules** for network diagnostics, including automated device reachability checks and log analysis, reducing average incident triage time by **15%**.
- Collaborated with engineering teams to integrate **AWS Transit Gateway** with existing on-premises network infrastructure, facilitating secure and scalable connectivity for new cloud-based services.
- Managed and maintained **Linux-based network appliances**, performing software upgrades, configuration backups, and log monitoring using **Splunk**.
- Authored comprehensive technical documentation for network architecture, standard operating procedures, and troubleshooting guides, ensuring knowledge transfer for a team of 8 engineers.
- Containerized network automation tools using **Docker** and deployed them to a **Kubernetes** cluster, enabling consistent execution environments and simplifying CI/CD integration.

SKILLS

Networking – Cisco SDWAN, BGP, OSPF, IPSec, WAN, MPLS, SDWAN, Network Automation, Network Reliability, Capacity Planning, Bandwidth Forecasting

Cloud – AWS Transit Gateway, AWS CloudWAN, AWS Direct Connect, AWS Network Firewalls, EC2, S3, Lambda, CloudWatch

Programming/Scripting – Python, Bash Scripting

Infrastructure – Kubernetes, Docker, Linux

Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Automated Network Deployment Pipeline (HCL Technologies)

- Engineered an end-to-end CI/CD pipeline using **Jenkins** and **Python** to automate the deployment of network device configurations to over **1,000 Cisco routers**.
- Developed validation scripts in **Python** to verify configuration integrity and compliance against predefined standards, catching over **90%** of potential errors pre-deployment.
- Integrated the pipeline with **Git** for version control and automated rollback capabilities, significantly improving deployment reliability and reducing manual intervention.

SDWAN Edge Network Resilience Enhancement (HCL Technologies)

- Designed and implemented enhanced **SDWAN designs** to improve network availability and enable seamless **cloud-based firewall integration** for enterprise customers.
- Migrated over **500 SDWAN sites** to more resilient architectures, distributing traffic across multiple SDWAN routers and eliminating single points of failure.
- Developed **Python scripts** to monitor circuit availability and performance, proactively identifying and resolving potential bandwidth constraints.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
