HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed Python scripts for automating ETL processes and generating scheduled operational reports, reducing manual data processing time by approximately **40%**.
- Engineered and maintained **Java Spring Boot** REST APIs for cross-service data exchange, implementing request validation and circuit-breaker patterns to enhance system resilience.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 incidents and ensuring adherence to strict SLAs.
- Wrote **SQL** queries for data validation, ad-hoc analysis, and schema modifications across **PostgreSQL** and **MySQL** databases.
- Containerized applications using **Docker** and managed deployment pipelines via **Jenkins**, contributing to a more streamlined CI/CD workflow.
- Collaborated with cross-functional teams to decompose complex problems into straightforward, implementable solutions for network infrastructure projects.
- Participated in **Agile/Scrum** ceremonies, including sprint planning and technical estimations, to drive project timelines and deliver features efficiently.

SKILLS

Languages – Python, Java, SQL, Linux Shell Scripting

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins

Databases – PostgreSQL, MySQL, Oracle

Tools/Observability – Splunk, Dynatrace, Jira, Confluence, Git

Data Analysis/BI – Power BI, Tableau, DAX, Power Query, R/RStudio

Networking – Load Balancers, Switches, Routers, Networking Fundamentals

PROJECTS

Automated Infrastructure Provisioning Pipeline

- Developed a **Python**-based CI/CD pipeline integrated with **Jenkins** to automate the provisioning and configuration of **AWS** infrastructure resources like EC2 instances and S3 buckets.
- Implemented shell scripting on **Linux** to manage cron jobs and log analysis for monitoring the health and performance of deployed services.
- Designed and built reusable infrastructure components using configuration management tools, enabling faster deployment cycles for new network services.

Distributed System Performance Monitoring Dashboard

- Created a **Power BI** dashboard to visualize key performance indicators and operational metrics from distributed systems, consolidating data from multiple sources.
- Wrote complex **DAX** measures and utilized **Power Query** for data transformation and modeling to support in-depth analysis of system behavior.
- Collaborated with operations teams to define critical metrics and ensure the dashboard provided actionable insights for identifying and resolving bottlenecks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
