HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Oracle database automation** solutions for a financial-services client, reducing manual intervention by **40%**.
- Developed and maintained **PL/SQL scripts** for data manipulation and stored procedures within enterprise Oracle environments, supporting critical reconciliation workflows.
- Advised software engineers on **Oracle database internals**, including query optimization techniques and indexing strategies, improving application performance by an average of **18%**.
- Executed **database benchmarking** and performance testing using custom automation, identifying bottlenecks and proposing infrastructure adjustments that increased throughput by **15%**.
- Contributed to the definition of **database roadmap items** for Oracle RDS, translating business requirements into technical specifications for new feature development.
- Performed **on-call duties** for production Oracle database systems, including incident response, root cause analysis, and customer support, resolving over **50 critical issues**.
- Containerized database management tooling using **Docker** and deployed to **AWS EC2** instances, ensuring consistent environments for development and testing.

SKILLS

Database Automation – PL/SQL, Oracle, RDS, Database Internals, Benchmarking, Automation

Cloud Platform – AWS, EC2, CloudWatch

Database Technologies – Oracle Database, SQL, Indexing, Query Optimization

Development Tools – Docker, Git, Jenkins

Scripting Languages – Python, Shell Scripting

PROJECTS

Oracle Performance Tuning and Automation Framework

- Developed a Python-based framework to automate **Oracle database performance** monitoring and generate detailed reports on key metrics like query execution time and resource utilization.
- Implemented **PL/SQL procedures** and shell scripts to automate routine maintenance tasks, including index rebuilding and statistics gathering, reducing manual effort by **35%**.
- Configured **AWS CloudWatch alarms** for critical database performance indicators, enabling proactive identification of potential issues before they impacted end-users.

Enterprise Database Migration and Replication Service

- Designed and built a service using Java Spring Boot to facilitate the migration of data between different Oracle database versions, ensuring data integrity and minimal downtime.
- Integrated **Oracle Data Guard** for high availability and disaster recovery, configuring standby databases and failover procedures for a critical financial reporting system.
- Wrote comprehensive **SQL scripts** for data validation and reconciliation post-migration, confirming the successful transfer of over 500 GB of transactional data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
