HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed **Java Spring Boot** microservices for backend systems, contributing to new feature development and bug resolution within established codebases.
- Designed and implemented **Hibernate** entities and persistence logic for data management, ensuring efficient data retrieval and storage across relational databases.
- Authored **JUnit** tests and conducted code reviews for Java applications, upholding code quality standards and facilitating collaborative development within an Agile framework.
- Designed and built **cloud-computing system software** for large-scale network operations, integrating with existing AWS infrastructure services.
- Collaborated with network engineering teams to automate **software roll-outs** and troubleshoot platform issues, ensuring smooth deployments and operational stability.
- Mentored junior engineers on software development best practices and provided technical guidance on complex problem-solving initiatives.
- Containerized network controller services using **Docker** and managed deployments on **AWS EC2** instances, focusing on scalability and operational efficiency.

SKILLS

Languages – Java, Python, SQL, Linux Shell Scripting

Frameworks/Libraries – Spring Boot, Hibernate, JUnit, pandas, NumPy

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

Concepts – REST APIs, Microservices, CI/CD, Agile/Scrum, Data Warehousing, Network Automation

PROJECTS

Java-based Network Automation Service

- Developed a **Java Spring Boot** service to automate network configuration tasks across multiple data centers, improving deployment speed by **30%**.
- Integrated with **AWS S3** for storing configuration templates and logs, ensuring data durability and accessibility for audit purposes.
- Implemented robust error handling and logging mechanisms to facilitate effective troubleshooting and maintenance of the automation workflows.

AWS Infrastructure Monitoring Dashboard

- Built a **Python** data pipeline to aggregate metrics from **AWS CloudWatch** for network performance monitoring, covering over 500 EC2 instances.
- Created interactive dashboards using **pandas** and custom visualizations to present key performance indicators and operational status to engineering teams.
- Designed data models for efficient querying and analysis of time-series data, enabling faster identification of potential network bottlenecks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
