HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for inter-service communication, incorporating **REST API** contracts and robust error handling mechanisms.
- Developed and maintained **JPA** entities and repositories for data persistence, ensuring efficient interaction with **PostgreSQL** databases and managing complex relational data.
- Authored **JUnit** and **Mockito** tests for Java components, achieving over **85% code coverage** and validating critical business logic for enterprise applications.
- Contributed to system design discussions, focusing on enhancing **resiliency** and **scalability** for high-throughput services within an AWS environment.
- Participated in **code reviews**, providing constructive feedback to peers and junior engineers to maintain high code quality and adherence to engineering standards.
- Authored comprehensive **runbooks** and operational documentation for newly developed features, streamlining incident response and knowledge transfer for the on-call rotation.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, establishing basic CI/CD pipelines with **Jenkins** for automated builds and deployments.

SKILLS

Languages – Java, Python, SQL, TypeScript

Frameworks/Libraries – Spring Boot, JPA, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence

Analytics/BI – Power BI, Tableau, DAX, Power Query, R/RStudio

PROJECTS

Enterprise Java Backend Service Modernization

- Refactored a monolithic Java application into a set of **Spring Boot microservices**, improving system modularity and enabling independent deployments.
- Implemented **RESTful APIs** for core business functions, facilitating seamless integration with downstream enterprise systems and reducing inter-service dependencies by **40%**.
- Managed data persistence using **Hibernate** and **PostgreSQL**, optimizing query performance and ensuring data integrity for critical financial transaction processing.

Automated Production Monitoring and Alerting

- Developed **Python scripts** to parse logs from **Splunk** and **AWS CloudWatch**, identifying patterns indicative of production issues.
- Built automated alerting mechanisms that reduced manual alert review time by **30%**, by filtering noise and prioritizing critical P1/P2 incidents for the operations team.
- Configured dashboards in **Dynatrace** to provide real-time visibility into application health and performance metrics, supporting proactive issue detection.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
