HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented scalable **Java Spring Boot** microservices for backend systems, focusing on RESTful API development and inter-service communication patterns.
- Developed and maintained backend services using **Hibernate** and **JPA** for efficient data persistence and retrieval from relational databases, ensuring data integrity and performance.
- Authored comprehensive unit and integration tests using **JUnit** and **Mockito** to ensure code quality and adherence to design patterns in **Java EE** applications.
- Contributed to the design and development of highly scalable, reliable services that support millions of customers and users, analyzing system architectures at scale.
- Collaborated closely with a strong team of software engineers and technologists to solve complex problems and build high-impact products and services using an iterative and agile development approach.
- Took end-to-end ownership of projects, driving them from design and development through delivery and ensuring high-quality outcomes in a fast-paced environment.
- Containerized applications using **Docker** and deployed them to **AWS Elastic Beanstalk**, managing configurations and ensuring smooth operational transitions.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, Spring Cloud, pandas, NumPy, scikit-learn, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch, Elastic Beanstalk)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Linux, Shell Scripting

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis

PROJECTS

Scalable Java Microservices for Transaction Processing

- Developed a suite of **Java Spring Boot** microservices to handle high-volume transaction processing, utilizing **Hibernate** for data access against a **PostgreSQL** database.
- Implemented asynchronous communication patterns using Kafka for decoupling services and ensuring message durability, processing approximately 500 messages per second during peak loads.
- Containerized the microservices with **Docker** and orchestrated deployments on **AWS Elastic Beanstalk**, reducing deployment time by 40%.

Real-time Analytics Dashboard for Enterprise Systems

- Engineered a data pipeline using **Python** and **pandas** to aggregate operational metrics from multiple enterprise systems, feeding into a centralized data store.
- Built interactive **Power BI** dashboards to visualize key performance indicators and system health for business stakeholders, enabling faster identification of operational bottlenecks.
- Automated report generation and distribution using **Python** scripts scheduled via cron jobs on a **Linux** environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
