HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support for enterprise applications on **AWS**, utilizing **Splunk** and **Dynatrace** for monitoring and SLA adherence, resolving P1/P2 incidents.
- Developed **Python** scripts for automating data ingestion and scheduled reporting tasks, improving data processing efficiency for internal teams.
- Performed ad-hoc queries and executed schema changes in **PostgreSQL** and **MySQL** databases to support application updates and data validation.
- Contributed to feature development and bug fixes for existing **Java Spring Boot** services, including the design and implementation of new **REST APIs**.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments across development and production.
- Participated in CI/CD pipeline management using **Jenkins** and **Git**, conducting code reviews and maintaining branching strategies.
- Collaborated with cross-functional teams on the development and testing of scripts to enhance operational workflows and automate system checks.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI

Databases – SQL, PostgreSQL, MySQL, Oracle

Operations & Monitoring – Linux, Docker, Jenkins, Git, Splunk, Dynatrace, CloudWatch

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, R/RStudio

Methodologies – Agile, Scrum

PROJECTS

Cloud Operations Automation Suite (HCL Technologies)

- Engineered a suite of **Python** scripts to automate routine operational tasks on **AWS**, including log aggregation from **EC2** instances and health checks for critical services.
- Developed **Docker** containers for deploying automation tools, streamlining the setup process for new team members and ensuring environment consistency.
- Integrated the automation suite with **Jenkins** to create automated deployment and verification workflows, reducing manual intervention in system updates by approximately **40%**.

Enterprise System Integration Framework (HCL Technologies)

- Designed and implemented a reusable **Java Spring Boot** framework for integrating disparate enterprise systems, focusing on robust error handling and logging.
- Built **REST APIs** within the framework to enable seamless data exchange between a core ERP system and a supporting operational dashboard.
- Managed database interactions using **JPA** and **PostgreSQL**, ensuring data integrity across interconnected systems during change management processes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
