HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected **Oracle database** solutions integrating with **AWS services** including **EC2**, **VPC**, and **IAM**, focusing on high availability and performance.
- Led the design and implementation of **database automation solutions** for Oracle RDS, scaling to millions of database instances.
- Mentored junior **Software Engineers** and **Database Engineers** on **Oracle database internals** and operational best practices.
- Developed and executed comprehensive **automation frameworks** for **database benchmarking** and performance validation, identifying key bottlenecks.
- Managed on-call operations for managed database services, performing **incident response**, **root cause analysis**, and driving permanent resolution of systemic issues.
- Drove technical strategy for **database-specific roadmap items**, translating customer learnings into actionable engineering requirements for new features.
- Containerized **Oracle database** workloads using **Docker** and orchestrated deployments on **AWS EKS**, ensuring efficient resource utilization and scalability.

SKILLS

Database Internals – Oracle, Storage Architecture, Replication, Query Optimization, PGA/SGA Memory Management, Data Guard

AWS Services – RDS for Oracle, RDS Custom for Oracle, EC2, VPC, IAM, CloudWatch, EKS

Database Management – PL/SQL, Java, SQL, Performance Tuning, High Availability, Multi-AZ Deployments, Read Replicas

Automation & Scripting – Database Automation, Benchmarking, Performance Validation, Scripting, CI/CD

Cloud Engineering – Docker, Kubernetes, Infrastructure as Code, Operational Tooling

PROJECTS

Oracle RDS Performance Optimization Framework

- Engineered a comprehensive **performance validation framework** for **Oracle RDS**, incorporating automated testing for query optimization and memory management.
- Developed Python scripts to automate the collection and analysis of performance metrics from **CloudWatch** logs, reducing manual analysis time by **40%**.
- Designed and implemented **Java**-based tooling to simulate high-load scenarios, identifying and resolving critical bottlenecks in **replication mechanisms**.

Automated Oracle Database Provisioning with IaC

- Architected and built an **infrastructure-as-code** solution using **Terraform** for automated provisioning of **Oracle databases** on **AWS EC2**.
- Implemented **Docker** containers for consistent environment setup, reducing deployment times for new database instances by **60%**.
- Integrated the provisioning process with **Jenkins** pipelines for continuous integration and deployment of database infrastructure configurations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
